How do we get 98%+ client satisfaction?

Why all our clients are reference sites.

Hands-on ownership

High staff engagement, low turnover with no contractors

At a minimum, there is monthly Quality Assurance review of the consultant's work, done by either the Founder, Managing Director or PMO Practice Lead

Bench support available to all consultants at no cost to the client

Extensive mentoring and training support, strong IP and knowledge sharing

Holiday and sick leave cover for assignments

Strong in-house tooling to support consultants, clients and quality assurance

How our values impact our delivery?

Teamwork

Teamwork has to be at the core because you can't deliver big projects without great teamwork – we focus on ensuring that the Seven team, the client team and vendors work seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A focus on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to clients high expectations.

Customer Experience Transformation

Enhancing AGL digital capability and platforms, and deliver an industry leading digital experience for customers

AGL invested \$300 million in a Customer Experience Transformation (CXT) program that enhanced their digital capability and platforms, and delivered an industry leading digital experience for customers.

The Seven Consulting team was engaged to realign an existing Portfolio Office (Tribe Services) towards SAFe Lean Agile Portfolio Management principles as well as perform the 2IC role for the General Manager Transformation.

Seven Consulting provided Tribe Services capability to deliver core Lean Agile Portfolio Management office disciplines to deliver:

- Improved governance reporting in the following areas: Portfolio Kanban, Benefits Management and key metrics monitoring
- Portfolio Management leadership through regular informal and formal communication.
- Values such as Transparency and One Team Approach to delivery
- Portfolio alignment to business strategy and funding allocation based on a prioritised backlog

Store Transformation Program

Replacing all core POS, Ticketing and Inventory store systems across all stores in all seven brands

Woolworths decided to move to a centralised IT stack to provide IT services to the 3,464 stores across the Woolworths, Countdown, Metro, Fuel, BWS, Dan Murphy's and Big W banners. To enable this change, Woolworths were also required to renew a large proportion of the existing IT Infrastructure.

The Seven Consulting team was engaged to provide Program Director and PMO services to coordinate the various IT Application, IT Infrastructure and Business streams to ensure the overall program success.

Seven Consulting successfully provided program leadership and structure to ensure: Delivery of the dependent IT Infrastructure components ahead of the committed software deployment deadlines

- The Modernisation of the Point of Sale and Back Office functions within each store, gaining material efficiencies and providing a foundational platform for new application and internet-based initiatives
- Compliance with the Country of Origin Labelling (COOL) regulatory requirements within the 1st July 2018 deadline

Core Banking Platform

Transforming Core Banking at CBA

The largest banking platform program in a generation was planned to propel CBA ahead of the competition who were still languishing on their 1970s based platforms.

For 6 years, Seven Consulting provided a variety of critical services to this massive \$1.5bn undertaking, from running the Program Management Office, to release and deployment planning, to project managing key releases of the program.

The new platform is a huge success. Customers love real time banking, the simpler product set and the ease of the enhanced self service facilities, while staff enjoy simpler processes to release new products, and speedier resolution of issues on the front line.

Project Capability Uplift

WOOLWORTHS GROUP

Delivery Capability Uplift at Woolworths Group

Woolworths IT had concerns with project time delays, cost overruns and benefits management. They were keen to uplift their project delivery including accelerating their initiation phase and ensuring that projects were set up for success.

Seven Consulting established a Transformation Program including twenty-four initiative streams to improve the delivery culture and project management capability, introduce flexibility and agility into project methodology and governance, improve performance visibility via a Balanced Scorecard and strengthen Portfolio Management.

The IT Portfolio and Project Management Offices now provide a full suite of services to better support the PM community and drive ongoing improvements. Customer and staff satisfaction has materially increased quarter on quarter.

Wealth Transformation

Program Management for separation of MLC Insurance from NAB

In 2015, NAB entered into an agreement to sell 80% of its MLC insurance business to Nippon Life. The sale required the establishment of a new organisation, MLC Life, and the separation of the new legal entity from NAB.

Seven Consulting provided five consultants to the Transformation Program undertaking corporate restructuring & employee communications, procurement transitioning, delivery assurance and project scheduling.

Seven's team contributed to the completion of the prerequisite Successor Funds Transfer ensuring key personnel & workforce offers for MLCL were in place; and ensuring operational readiness activities were completed and assured by Day 1. The program met all the required contractual obligations to allow the sale of MLC Life to be completed on schedule.

Netbank

Changing the Online Customer Experience at Australia's Largest Bank

CBA needed to re-platform and radically improve their online customer experience with a new look, a wider range of services, and capability to support an expanding customer base with greater speed and uptime.

The Seven Consulting team led this major Netbank replacement program from initialisation through to implementation and roll-out, achieving an outstanding set of outcomes.

Netbank is the market leader, and customer satisfaction with the service is at record levels, contributing to the surging success of CBA in recent years.

ONEHR

*Leading implementation of the new QBE
ONE company global operating model.*

ONEHR@QBE was the first transformation program as part of the ONE QBE initiative to create a globally consistent operating model, tasked with creating a single set of simplified HR processes across 4 operating divisions and 42 countries.

Seven Consulting was engaged to take over management of the program. After an initial review, Seven Consulting introduced a new program structure and governance framework, as well as key program controls.

The program went live on time, within budget, creating and implementing the revised operating model for Global HR Service Delivery, including the implementation of a new Human Capital Management system.

B2B Digital Transformation

Transform the customer experience by creating integrated end-to-end processes and systems

Telstra invested over \$500 million in a B2B (Business to Business) digital transformation for Telstra Enterprise which established new processes, products, offers and platforms.

The Seven Consulting team was engaged in November 2017 to provide program management, PMO, scheduling, dependency management and project management roles.

Key outcomes Seven Consulting helped Telstra to achieve include:

- Met Telstra Enterprise's market commitments by the end of Dec 2018 which included the soft launch of the Connected Workplace (CWP) offer to a number of early adopter customers
- Established quarterly Agile delivery cadence for new capability.
- Delivered 4 major software releases into production, established the baseline platforms for the new B2B stack, implemented over 120 interfaces
- Led 2 large PI planning events with 100 people
- Prepared and led 4 executive showcases of the B2B solution to audiences of between 150 – 400 people
- Established comprehensive Agile status reporting and program test reporting for the Digital Core part of the program

Major Program Assurance Framework

Finance,
Services &
Innovation

*Strengthening governance to improve major
program investment outcomes*

The Department of Finance, Services & Innovation (DFSI) was tasked by the NSW Government to implement the ICT Assurance Framework (IAF). The aim of the IAF is to build confidence in the Government's \$2.4bn annual investment in ICT programs that provide essential support for business operations and government service delivery. A key element to the framework was the establishment of a standardised whole-of-government program reporting and monitoring capability.

DFSI engaged Seven Consulting who designed, in conjunction with DFSI, a set of best practice metrics and leading indicators which were endorsed by the NSW Government ICT leadership. A Seven Consulting Program Manager then led a combined DFSI and Seven Consulting project team to develop the tools, processes and standardised dashboards, and reports required to implement the framework.

This was backed up by a significant change management exercise, led by Seven Consulting, to ensure buy in from the affected agencies and Government departments. Once adopted, DFSI were able to receive regular, standardised reports from all major NSW Government ICT Programs, enabling them to receive early warning of emerging issues and act ahead of time to prevent its major programs from failing.

Link Group – Superpartners Integration

*Transition of over 5 million superannuation members
from Superpartners to Link Group*

Link Group is a market leading provider of superannuation administration solutions across 11 countries and its clients include some of Australia's largest superannuation funds. Link Group acquired Superpartners in 2014 and as a result of this, needed to integrate the two businesses and migrate all of Superpartners client data onto Link systems within an agreed timeframe and according to defined quality criteria.

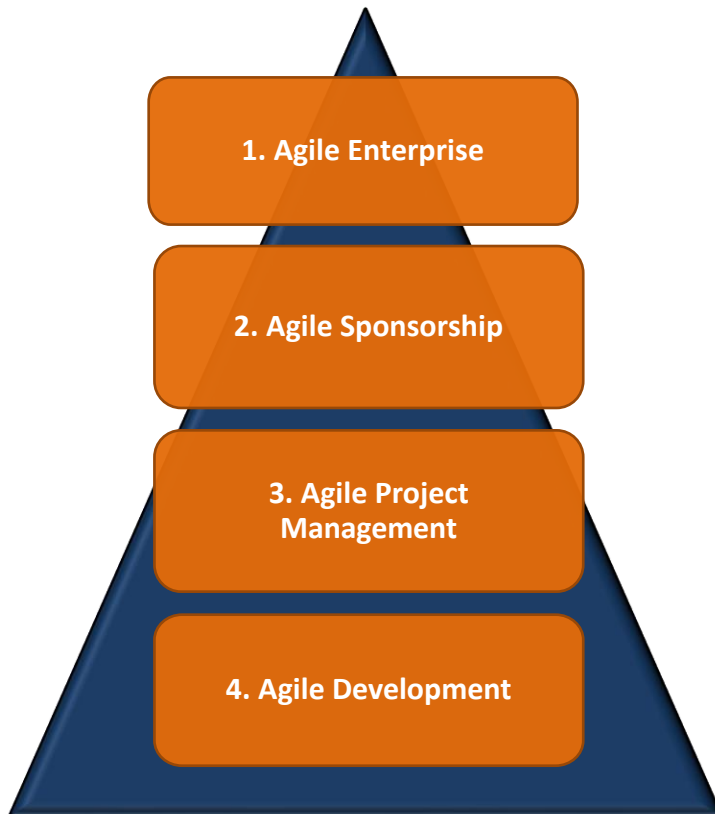

The transition program was responsible for migrating over 5 million members' data and \$200 billion funds under management for the following major funds: MTAA Super, Hesta, Hostplus, Cbus and AustralianSuper. The program was closely monitored by regulators (e.g. ASIC, ATO), external auditors and share market investors. The success of the integration would be a key factor in the Link Group IPO in 2015. Seven Consulting provided a Program Director, a PMO Manager and a Senior Project Manager to manage the transition team which peaked at over 200 resources.

The program successfully transitioned the 5 major funds from Superpartners processes and systems to Link Group (AAS) within the time, budget and agreed quality criteria. The success of the transition program was well received by the market and had a positive impact on the Link Group IPO.

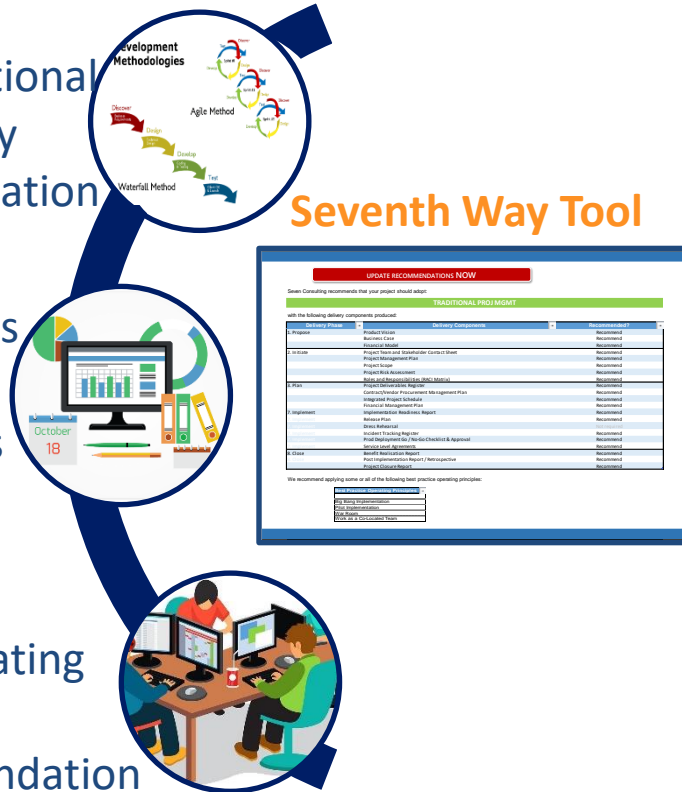

The Integrated Agile Enterprise Framework

- Seven Consulting's Agile Project Enterprise Framework outlined below is a proven framework of integrated processes, tools and techniques focused on simpler, faster delivery & improved ongoing support of the delivered change.
- The key focus is the integration of speed of decision-making, planning and delivery of real benefits.

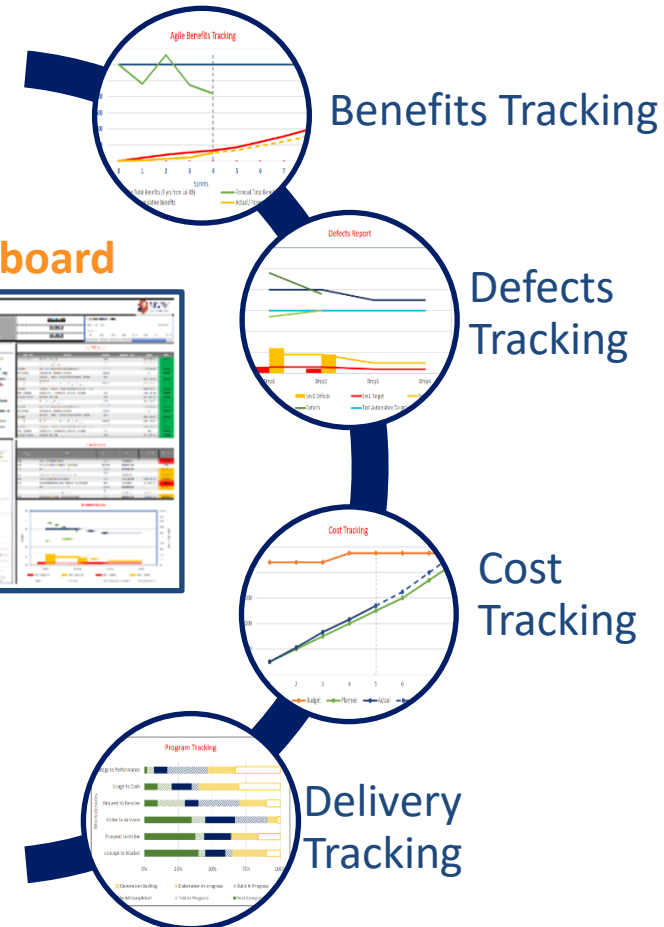

1. **Agile Enterprise (AE)** focuses on the cultural, procedural and people changes required to optimise, adopt, embed to sustain Agile models of project delivery. This includes an agile approach to strategic portfolio governance.
2. **Agile Sponsorship (AS)** requires executives to get closer to their projects, their project managers and their project teams. Single sponsors who must be flexible in making time available for face-to-face meetings and use simplified and face-to-face reporting lines. The Agile Sponsor is focused on benefits realisation.
3. **Agile Project Management (APM)** is an open, stakeholder-driven approach to project planning. While Scrum Masters and Product Owners focus on the detailed technical delivery, APM's must focus on stakeholder engagement, change management and related projects to ensure outwards as well as inwards management of the project.
4. **Agile Development (ADM)** involves a cultural as well as a procedural and technical change in how projects are planned and delivered. The coaching of project managers, business experts in how to setup and support Agile Development (Scrum, SAFe, etc.) is a critical factor for successful and sustained deployment of Agile Development Methods.
