# PMO Creation

## *Delivery Turnaround at Stockland*

Stockland had experienced an unsatisfactory level of projects being delivered late, over budget or failing to meet objectives.

Seven Consulting established a PMO framework and capability tailored to the Stockland culture and environment, and worked with staff and stakeholders to bring them on the journey.

Key business stakeholders see the benefits and become active champions of the PMO. Poor project delivery and 'Red' projects are a rarity.

# Managing an Agile Portfolio

## *Improve Customer Experience Transformation (CXT) Program for AGL via Agile principles at scale*

AGL engaged Seven to improve the tribe services for the large scale agile CXT Program (\$300M budget). Number of key disciplines needed to be revisited including Executive Reporting, Transparency, Benefits Realisation framework and promote the “One Team Approach”

Seven deployed a highly skilled team, who partnered with AGL to implement Agile tools and cadence to lift the tribe services effectiveness. This included engaging business owners via Portfolio KANBAN Board's and aligning key stakeholders like legal, audit and value stream owners via synchronisation at key ceremonies.

- ✓ Enabled benefits realisation focus across the portfolio
- ✓ Aligned Program backlog to AGL's strategic themes
- ✓ Improved lean governance structures and the right focus at each level
- ✓ Additional initiatives proposed by Seven Consulting commenced implementation within AGL.

# PM Capability / PMO Review

*Assessing and designing the transformation of the delivery capability for Australia's largest nation building program*

nbn IT delivers large and complex programs for their internal customers. As a company that had experienced rapid growth they realised that the ways of working that had been successful in the past may not be as effective in the future. They wanted to investigate alternatives that would allow them to maintain a strong delivery reputation but with greater efficiencies

Seven Consulting led an intensive review of capability and performance. We interviewed 76 members of staff, held workshops for an additional 67 team members and reviewed over 50 project artefacts. We observed processes and meetings and drew a comprehensive picture of PM and PMO performance and capability. We delivered papers for C-level review that detailed the strengths and weaknesses of the current organisation and defined a clear strategy and route for sustainable improvement. These papers were accepted and we then planned and initiated the Transformation

nbn have now established a multi year Transformation program that is already delivering efficiencies. We successfully delivered the first initiatives in the roadmap and a senior nbn leader said “(we) got value for money from the engagement and we were left with actionable information that continues to be used at senior levels within the company”
