EPMO Maturity Model

We use the below maturity model to help us assess what is the current capability level of the client's EP MO and the desired target state;

Typical EPMO Review Approach

- A 5 week exercise is required to understand our client's current stakeholder requirements, assess the current state, review options for EPMO uplift and create the report including recommendations.

Common Challenges of the (E)PMO

Every PMO in every client receives a tailored solution. However our experience indicates that there are common themes in the issues clients experience at a Project/Program and Portfolio/Enterprise level.

Common Problems	Frequent Root Causes	Common Solutions	Services – How we can help
Poor project or program delivery	- Poor PMO control or Governance - Executive Sponsorship is missing - Appropriate metrics and tools not in place	- Supplement /Upskilling PMO and project staff - Sponsor Training - Implement Appropriate metrics and Tools	- PMO & Delivery support - Outsource / Virtual PMO - PMO Capability & Uplift - Sponsor Training - Tools implementation
Lack of capability, capacity or a transient need for PMO	- Unexpected or shorter term transformation workload - Project or program workload that is unusual or outside normal expertise	Supplement PMO or delivery staff	- PMO & Delivery support - Outsource / Virtual PMO
Perceived lack of value or poor return on PMO investment	- High base costs - Ineffective processes or processes not followed - Global or offshore teams not supported well - Lack of clarity from Sponsors	- Cost reduction without impacting quality - Improve processes or process compliance - Improve PMO coverage	- PMO & Delivery support - Outsource / Virtual PMO - PMO Capability & Uplift - Training & Tools
PMO not adding value or seen as “just policemen”	- PMO not thinking strategically - Lack of PMO focus on business benefits - PMO too focussed on the “how” not the “why”	PMO maturity development	- PMO Capability & Uplift - PMO & Delivery support - PMO Maturity Development

Enterprise PMO Implementation

OPTUS

*Design, build and implementation of Optus Consumer ePMO/
For an Agile organisation*

Optus had transformed to a predominantly agile delivery organisation. However, there was no overarching ePMO, portfolio build, dependencies management, delivery process design, benefits management framework, etc.

Seven Consulting designed, built and implemented an ePMO for the Optus CEO, working closely with the agile tribes and key stakeholders. This was performed on schedule and on budget, including significant culture change.

Optus has a structured portfolio design process active, Portfolio management, centralised PM, BA and change management capability, more active governance and a benefits management framework.

PMO Creation

Delivery Turnaround at Stockland

Stockland had experienced an unsatisfactory level of projects being delivered late, over budget or failing to meet objectives.

Seven Consulting established a PMO framework and capability tailored to the Stockland culture and environment, and worked with staff and stakeholders to bring them on the journey.

Key business stakeholders see the benefits and become active champions of the PMO. Poor project delivery and 'Red' projects are a rarity.

Managing an Agile Portfolio

Improve Customer Experience Transformation (CXT) Program for AGL via Agile principles at scale

AGL engaged Seven to improve the tribe services for the large scale agile CXT Program (\$300M budget). Number of key disciplines needed to be revisited including Executive Reporting, Transparency, Benefits Realisation framework and promote the “One Team Approach”

Seven deployed a highly skilled team, who partnered with AGL to implement Agile tools and cadence to lift the tribe services effectiveness. This included engaging business owners via Portfolio KANBAN Board's and aligning key stakeholders like legal, audit and value stream owners via synchronisation at key ceremonies.

- ✓ Enabled benefits realisation focus across the portfolio
- ✓ Aligned Program backlog to AGL's strategic themes
- ✓ Improved lean governance structures and the right focus at each level
- ✓ Additional initiatives proposed by Seven Consulting commenced implementation within AGL.

PM Capability / PMO Review

Assessing and designing the transformation of the delivery capability for Australia's largest nation building program

nbn IT delivers large and complex programs for their internal customers. As a company that had experienced rapid growth they realised that the ways of working that had been successful in the past may not be as effective in the future. They wanted to investigate alternatives that would allow them to maintain a strong delivery reputation but with greater efficiencies

Seven Consulting led an intensive review of capability and performance. We interviewed 76 members of staff, held workshops for an additional 67 team members and reviewed over 50 project artefacts. We observed processes and meetings and drew a comprehensive picture of PM and PMO performance and capability. We delivered papers for C-level review that detailed the strengths and weaknesses of the current organisation and defined a clear strategy and route for sustainable improvement. These papers were accepted and we then planned and initiated the Transformation

nbn have now established a multi year Transformation program that is already delivering efficiencies. We successfully delivered the first initiatives in the roadmap and a senior nbn leader said “(we) got value for money from the engagement and we were left with actionable information that continues to be used at senior levels within the company”

2020 – DONATION DRIVE

In 2020, Seven Consulting continued to acknowledge the importance of fostering a community presence. Despite the restrictions brought on by the COVID-19 pandemic, the Project 7 initiative was able to provide help to those community causes that needed it most. Although physical volunteering was no longer an option due to health concerns, Project 7 gave back to the community, by donating \$104,000 across 29 charities, enabling these organisations to create real change in the lives of those who need it most. In 2021, Project 7 will once again be providing the team at Seven the opportunity to volunteer their own time to the community.
