"The team from Seven has integrated effectively with IVC and shows they understand the business."

"Seven is one of the most prestigious consultancies in Australia and most of the Seven Consultants I have come across at my current and previous organisation prove that."

"Strong program delivery capability with the flexibility to scale up and down quickly to meet program and business needs. Look to continue to bring the best of the Seven ecosystem to clients to demonstrate the value-add."

"Good people and a focus on support from the central organisation when required."

"Very happy with the level of organisation and governance the Seven project/program managers bring to our more complex initiatives."

"Every Seven consulting person I have ever worked with has been very good at what they do."

How do we get 98%+ client satisfaction?

Why all our clients are reference sites.

Hands-on ownership

High employee engagement, low turnover with **no** contractors

At a minimum, there is a monthly Quality Assurance review of the consultant's work.

Bench support available to all consultants at no cost to the client

Extensive mentoring and training support strong IP and knowledge sharing including internal project training, majority of our team are SAFe certified.

Holiday and sick leave cover for assignments

Strong in-house tooling to support consultants, clients and quality assurance

How our values impact our delivery?

Teamwork

Teamwork has to be at the core because you can't deliver big projects without great teamwork.

We focus on ensuring that the Seven team, the client team and vendors work seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A strong emphasis on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to our client's high expectations.

Why Sponsor Coaching Sessions?

- Projects are the vehicle of strategic change.
 - The increasing rate of change is demanding Speed to Value from those projects
 - An organization's agility in executing the right change the right way and realising the benefits from those changes.
 - Many IT and project organisations are hampered by bureaucratic and slow project governance and project management models that were first used in the 1980's.
 - The Corporate Executive Board (CEB) *Accelerating Projects* report of 2015 reveals that Sponsors behaviours have a significant impact on Speed to Value.
 - Most organisations have standards and guidelines on **what** sponsors should do but not **how** to do their roles.
-
- Seven Consulting can provide a proven transformative approach, not just for how projects are managed, but how projects are governed, sponsored and planned.
 - Agile Project Sponsorship and Agile Project Management are based on collaboration, openness, transparency, simplicity and speed as the levers of change.
 - Seven Consulting has developed a suite of powerful tools and techniques that are proven to assist Sponsors to be more effective and agile.
 - Rob Thomsett has been at the forefront of designing and deploying these methods for over 15 years.

The Sponsor ensures the strategic impact and benefits of the project are aligned with the organisation's strategic and financial goals. The Sponsor determines the goal or outcome of the project and owns his or her project through the entire project life-cycle – planning, development, on-going operations and benefit realisation. The Sponsor must also be the key advocate for their project supporting their PM and team.

There are five major Governance functions undertaken by a Sponsor. These functions should be undertaken in an open and transparent partnership between the Sponsor, Program Manager and critical stakeholders.

These are:

Leading the development and approval of project Business Case

- Identification of expected Program Outcome and related benefits;
- Engagement of critical stakeholders;
- Proactive mitigation of project risks; etc.

Determining and managing the overall Project Governance process

- Agreement on project status reporting cadence;
- Composition and chairing of Steering Committee;
- Oversight of Organisational Change Management impact; etc.

Monitoring the on-going status of the project and Business Case;

- Regular meetings with Program Manager;
- Participation in key project reviews and retrospectives;
- Regular updates to colleagues and peers, etc.

Assistance in and approval of project change

- Assistance in resolution of project issues;
- Assessing impact on Business Case of changes;
- Agreement with and approval of updated Business Case and related plans; etc.

Oversight of on-going operations and benefit realisation

- Oversight of the Change Management implementation;
- Ensuring relevant resources and processes are funded and operational;
- Ensuring that planned benefits are realised in partnership with Benefit Owners; etc .

Our executive consultants have designed and tailored sponsor briefings, sponsor mentoring and coaching around our powerful tools and techniques, for the following major organisations over the past 7 years:

- In 2015, one of our lead consultants worked with a small team to assist a major financial institution to effectively measure, manage and realise benefits from a \$1 billion/pa project investment slate as part of the organisation's Agile Transformation. This involved developing leading edge approaches to benefits planning, managing and realising. This involved integrating benefits management into the governance, sponsorship, project and change management practices of the organisation.
- eon (UK) – one of the largest electricity companies in the EU
- CBA – Executive Sponsor Briefings (multiple year contract)
- NAB – Sponsor Briefings/Mentoring to over 200 senior executives (including. CEO Andrew Thorburn)
- Future Fund – Sponsor Coaching

Sponsor Coaching – Session Overviews

Given experience of senior management, this briefing has been designed as a series of conversations and tutorials. The executives involved in the briefing session can select the tutorials appropriate for their concerns.

The Coaching Sessions can be designed in 1 hour segments, half-day sessions or full-day sessions. They can be one-on-one or small group sessions.

Coaching session available include:

1. The new project management process – agile and simple

This tutorial covers Agile project management the various project contracts required by senior management for managing complex projects - Business Case, Quality Agreement, Stakeholder Agreements and Benefits Realisation. It explores key tools for “Setting up projects for Success”.

2. Agile sponsorship – doing the right project right

This tutorial explores the roles of senior business managers in managing Agile projects. This tutorial also examines senior managers role in the critical issue of project stakeholders or service providers. It covers techniques for analysing stakeholders relationships and for developing various stakeholders agreements. It also explores the role of stakeholders in benefits realisation.

3. Modelling objectives/Added Value/Benefits Realisation

This tutorial concentrates techniques for developing accurate and measurable project objectives/outcomes and the relationship between objectives and return-on-investment. It also presents the critical executives roles and powerful tools for managing benefits realisation and ensuring added value from their IT investment.

4. Quality Requirements

This tutorial concentrates on powerful techniques for modelling quality expectations or requirements. It also considers the impact on quality expectations on other project management issues such as estimation and risk. Senior management must define their quality expectations as part of managing the project. This topic is critical to effective governance and sponsorship.

5. Project Risk Assessment and Management

This tutorial examines the various approaches to project risk analysis, assessment and management. It also explores risk reporting, risk mitigation models and risk management plans and the role of senior management in project and benefit realisation risk management. It also examines the impact of execution risk and benefits realization risk.

The briefing also provides participants with a copy of *Agile Sponsorship* by Rob Thomsett.

Sponsor Coaching Experience / Case Studies

The Seven Consultant worked with a small team to design, implement and support a Benefits management Framework across 100 major programs and projects in a \$1 billion/pa portfolio. This involved project planning, project tracking integrated with benefits and benefits realisation reporting. Hundreds of executives, sponsors, finance experts, project managers attended briefing sessions conducted by the consultant. A small hands-on consultancy service for sponsors and benefit owners was also implemented.

The Seven Consultant worked with our Thought Leader to design, implement and then execute the Benefits Management approach for AGL's CXT program. CXT was a multi-year \$300m transformation initiative run using an Agile methodology. The approach was fully integrated into Agile and included definition, measurement and tracking of benefits through the life cycle with multiple business units. It was used as a basis for Benefits measurement in other areas of AGL and was used to report monthly to the Executive and through to the AGL board to demonstrate the value of CXT.

The Seven Consultant was engaged to undertake a detailed review of project management, benefits management, sponsor and governance processes for ME Bank. The recommendations from this review were accepted by ME Bank Board and are currently being implemented in pilot mode by ME Bank with part-time support from the consultant.

Seven Consulting worked closely with the Executive Sponsor of a complex project. Using the Seven Consulting PM Plug-In tools such as the O3, Benefits Scan, Quality Agreement. Win/Lose to assist the Sponsor, Seven Consulting experts engaged all key executives in building and agreeing with critical project planning and management details.

Finance,
Services &
Innovation

Project Management and PMO Capability Review - Seven Consulting undertook a forensic examination of the structure and effectiveness of DFSI's ePMO frameworks and Individual PM capability with a view to uplifting their overall program capability. The outcome was a design of an ePMO framework tailored to specific DFSI requirements and a report to give the DFSI executive better understanding of their Project Manager capability.

Other organisations that have engaged with Seven Consulting for Sponsor Coaching and support include Melbourne Girls Grammar, AMP, BNZ, ACU and Firemonkeys.

The Integrated Agile Enterprise Framework

- Seven Consulting's Agile Project Enterprise Framework outlined below is a proven framework of integrated processes, tools and techniques focused on simpler, faster delivery & improved ongoing support of the delivered change.
- The key focus is the integration of speed of decision-making, planning and delivery of real benefits.

1. **Agile Enterprise (AE)** focuses on the cultural, procedural and people changes required to optimise, adopt, embed to sustain Agile models of project delivery. This includes an agile approach to strategic portfolio governance.
2. **Agile Sponsorship (AS)** requires executives to get closer to their projects, their project managers and their project teams. Single sponsors who must be flexible in making time available for face-to-face meetings and use simplified and face-to-face reporting lines. The Agile Sponsor is focused on benefits realisation.
3. **Agile Project Management (APM)** is an open, stakeholder-driven approach to project planning. While Scrum Masters and Product Owners focus on the detailed technical delivery, APM's must focus on stakeholder engagement, change management and related projects to ensure outwards as well as inwards management of the project.
4. **Agile Development (ADM)** involves a cultural as well as a procedural and technical change in how projects are planned and delivered. The coaching of project managers, business experts in how to setup and support Agile Development (Scrum, SAFe, etc.) is a critical factor for successful and sustained deployment of Agile Development Methods.
