TEAMWORK • TRANSPARENCY • DELIVERY

Program Delivery

We deliver some of Australia's most complex and challenging agile, traditional and hybrid programs. We work with our clients to understand their organisational and program characteristics. These inform how we design our delivery approach to produce the best outcome for our clients. The majority of our consultants are scaled agile (SAFe) certified and manage billions of dollars of transformation programs that range in size from <\$1m to >\$500m.

PMO Services

We provide PMO establishment and management, PMO analysis and scheduling services, and tools for some of the largest organisations in Australia. This can range from scheduling services, to running the PMO for \$1.5bn programs, to ePMO management.

All of our clients are reference sites

Change Management Services

We provide program change management, adding value from the start of an initiative through to realising benefits. We also support the integration of change management at an enterprise level to improve portfolio performance.

Delivery Consulting

We provide delivery capability uplift, sponsor and project manager training, portfolio and program reviews to assist our clients improve their program delivery. We have successfully provided these services to over 50 clients.

Delivery Tools

Seven Consulting has designed and developed world leading tools to assist our clients optimise their portfolio, design their delivery approach and provide deep weekly delivery insights. These tools are used successfully on over \$5bn of Programs annually.

All of our clients are reference sites

Our Clients

Seven Consulting has a proven track record delivering critical outcomes for Australian organisations across industries and domains. 100% of our clients are reference sites.

Our clients and team are our top priority

- Schedule integrity measured with Healthcheck tool.
- Project reporting with dashboards and scorecards.
- Portfolio optimisation tool.

All our clients are reference sites.

“I am unconvinced of the value my bank gets from its 1billion + p.a. investment in technology”

David Murray, World Congress on IT Conference, 2002

“Of the 788 completed projects, a little over 10 per cent have had their expected benefits assessed.”

*Victorian Auditor-General’s Report,
Digital Dashboard: Status Review of ICT Projects and Initiatives, 2015*

- The majority of executives involved in the sponsorship of projects report that they struggle to have confidence in the benefits planning and benefit estimates of their projects;
- Too many projects develop benefits at the beginning, obtain approval to commence the project BUT never critically monitor the status of expected benefits once the project is in delivery;
- Most projects that have realistic benefit models fail to effectively engage critical stakeholders such as Change Management, Benefit Owners and Project Finance experts or engage them only towards the end of the project;
- The actual realisation of project benefits is complicated by lack of consequences, poor base-line data, inadequate metrics and inconsistent reporting.

Our Benefits Management Services

Benefits Management Framework (BMF)

Seven Consulting can provide a complete team to successfully tailor, design, deploy and support our proven integrated approach to Benefits Management. This approach, tools and artefacts for Benefits Management covers all types of projects, change management and includes comprehensive project risk tools. The Seven Consulting Benefits Management Framework is aligned to the other Seven Consulting services such as Program and Project Management.

The Seven Consulting Benefits Management Framework is based on the consulting, education and published books of internationally acknowledged Thought Leader, Rob Thomsett.

Benefits Management Education

Seven Consulting can deliver tailored education on Benefits Management for Sponsors, Project Managers, Business Analysts, Finance and senior technical experts. Thousands of sponsors, project managers and other project experts globally have attended these exciting and powerful education sessions.

These sessions are tailored to reflect the client's unique culture, processes, methodologies and are compatible with PMI, Prince, SAFe and other prevailing delivery methodologies.

Benefits Management Consulting and Coaching

Sponsors

Our Consultants provide coaching and mentoring based on our experience in supporting many hundreds of senior executives. We have coached these executives in these proven concepts, tools and techniques that enable full monitoring, tracking and, more importantly, real benefits realisation.

Project Management

Our Consultants can provide vendor-neutral, specialist and proven program and project management coaching in projects utilising the Seven Consulting Benefits Management Framework. All Seven Consulting professionals are trained in the Seven Consulting Benefits Management Framework.

Change Managers/Finance

Our Consultants can provide vendor-neutral, specialist and proven expertise in assisting Change Managers in defining and establishing the plan and realise benefits. We can provide coaching to your Change Managers in integrating our Benefit Management Framework into their existing methods.

Benefits Management Lead/Coach

Our consultants can provide an end-to-end service to define, analyse, implement, roll out and then run a customised Benefits Management process for clients. This role is focussed on Benefits or Value Realisation and provides coaching in Benefits Management as well as review of the actual data to provide input into decision making.

Benefits Management Approach: A proven solution

- Seven Consulting's Benefits Management Approach is an integrated suite of proven processes, tools and techniques focused on simpler, more realistic and collaborative benefits planning. It also addresses improved ongoing management of benefits across the delivery phase, the post-production support phase and the benefits realisation phase of the project life-cycle.

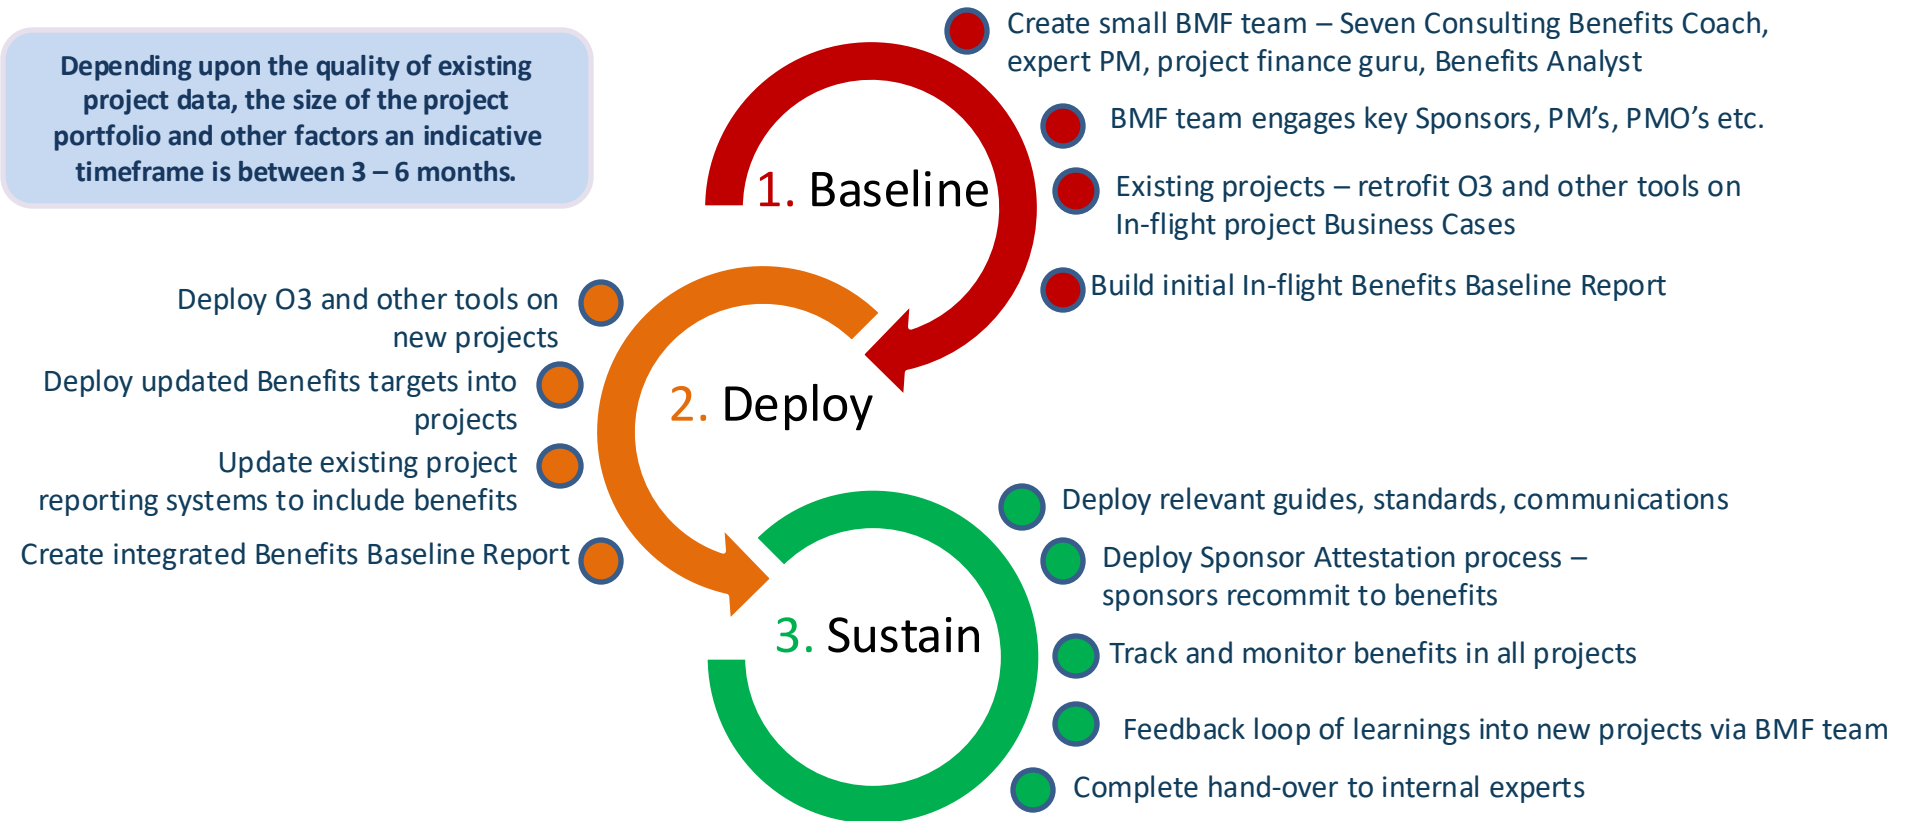

Benefits Management Approach: Powerful, simple tools

- Seven Consulting's Benefits Management Approach is built around a set of simple, powerful and integrated tools that enhance project management processes and greatly increase the depth of analysis and modelling of project benefits. These tools include:
 - O3 (Objective, Output, Outcome) Projects produce Outputs and Outputs lead to Outcomes. Understanding the clear, direct and provable links between Outputs and Outcomes is key to benefits realisation;
 - Benefit Categories Financial and non-financial benefits are classified into a taxonomy that clarifies what specific benefits each Output and Outcome are expected to deliver;
 - Benefit Realisation Plans A simple tool that identifies what actions stakeholders (Benefit Owners) must undertake to realise benefits and how those benefits will be measured and tracked;
 - Benefit Realisation Risk A tool that enables a structured and consistent assessment of the risks associated with the actual realisation of benefits including mitigation strategies;
 - Sponsor Attestation An essential tool that enables Sponsors to regularly review the status of their planned benefits and provide updates to governance and other relevant stakeholders;
 - Benefit Curves Different projects have different profiles for the timing and dynamics of their benefits realisation. This tool enables a more fine-tuned approach to determining the frequency of benefits tracking and when benefits realisation tracking finishes.

Benefits Management Approach: Implementation Approach

- Seven Consulting's Benefits Management implementation approach is one of partnering, coaching, consulting and skills transfer. Seven Consulting works with this team in deploying the tools and techniques on a set of pilot projects and then work with the team to ensure a full transfer of skills and knowledge.
- Typically implementing a Benefits Management Approach involves three stages summarised in the below and on the next page:

Portfolio Benefits Management

Implementing an integrated Benefits Management Framework for the Australian Catholic University

Deputy Vice-Chancellor and C.O.O. required a full Benefits Management Framework across \$250 million project portfolio including several large building projects,

For 6 months, Seven Consulting provided the framework, associated tools and coaching to a an ACU expert – Manager Enterprise Portfolio. The team revised multiple Business Cases, created a Benefits Management reporting system and provided consulting to major projects and programs .

An integrated benefits planning, tracking and reporting system was deployed successfully across the major ACU project portfolio. Monthly reports on planned versus actual benefits were integrated into existing portfolio reporting systems. Sponsors were held responsible for realising benefits and their performance measures were adjusted to include benefits realised.

Seven Consulting & Rob Thomsett's BMF Consulting Experience

Australian Government

Australian Taxation Office

Seven Consulting developed and deployed an early version Seven Consulting Benefits Management Framework across the entire \$1 billion ATO Modernisation project portfolio. Sponsored by the Commissioner and Deputy Commissioner, this consult involved an innovative ROI regime where a 20% p.a. dividend (profit) had to be returned to Department of Finance and Treasury. Seven consultants trained, coached and mentored all sponsors, project and change managers.

Seven Consulting continued to develop and deploy an evolving version of Seven Consulting Benefits Management Framework across the entire \$150 million AMP (UK) strategic project portfolio. Sponsored by the CEO and CIO, this consult lead to a revised project governance model and a number of projects being cancelled for lack of real benefits. Seven Consulting trained, coached and mentored all sponsors, project and change managers.

The Seven Consulting's BMF and associated Agile project management approach was adopted across the Macquarie Bank Group. A highly-focussed approach to real benefits had a significant impact on Macquarie's "best of breed" financial performance.

In an initiative sponsored by the CFO, Seven Consulting provided thought leadership, innovative tool development and practical support to improve the processes and practices for governing, planning, monitoring and realising benefits from the \$1billion/pa NAB project investment. This involved extensive reviews and consulting on a number of very large projects.

Seven Consulting designed, implemented and ran the Benefits Management Approach for AGL's Customer Experience Transformation program. The approach took account of the Agile methodologies that was used for the program and was used in reporting value to the board. We then customised and ran the Value Tracking System that tracked benefits for the Customer Markets Division portfolio.

Rob Thomsett
Thought Leader

Achievements:

- Consulting and implementing a relationship and values-driven model of project management and sponsorship in many international organisations including the top Australian banks.
- Fellow of the Australian Computer Society in recognition of his education and advocacy for emphasising the central point that project management was really the management of creative people working to improve business value.
- Consulting Director on the first Tax Modernisation Program in the late 1980's, a \$1bn program.
- Consulting with NAB Group as it implements his Agile approach to executive sponsorship, benefits realisation, project management and governance across a \$1bn/year project portfolio.
- Developed a comprehensive BMM for the Australian Catholic University.
- Author of 7 books including *The Real Benefits Workbook* available from Seven Consulting.

Improve Project Success Rates with Pathfinder

1. Follow a consistent approach to customise and optimise project delivery based each project's and organisation's key characteristics.
2. Reduce the level of project management oversights or omissions.
3. Identify delivery approach risks and mitigants.
4. Create a draft schedule in MS project or JIRA with streams, phases, deliverables, tasks and dependencies.
5. Enable better project outcomes.

All in 30 minutes or less.
