TEAMWORK • TRANSPARENCY • DELIVERY

Program Delivery

We deliver some of Australia's most complex and challenging agile, traditional and hybrid programs.

We work with our clients to understand their organisational and program characteristics.

These inform how we design our delivery approach to produce the best outcome for our clients. The majority of our consultants are scaled agile (SAFe) certified and manage billions of dollars of transformation programs that range in size from <\$1m to >\$500m.

PMO Services

We provide PMO establishment and management, PMO analysis, scheduling services, and tools for some of the largest organisations in Australia.

This can range from scheduling services, to running the PMO for \$1.5bn programs, to EPMO management.

All of our clients are reference sites

Change Management Services

We provide program change management, adding value from the start of an initiative through to realising benefits. We also support the integration of change management at an enterprise level to improve portfolio performance.

Delivery Consulting

We provide delivery capability uplift, sponsor and project manager training, and portfolio and program reviews to assist our clients improve their program delivery. We have successfully provided these services to over 60 clients.

Delivery Tools

Seven Consulting has developed world-leading tools to assist our clients in; portfolio optimisation, delivery approach design and weekly insights into their delivery. These tools are used successfully on over \$5bn of programs annually.

All of our clients are reference sites

Our Clients

Seven Consulting has a proven track record delivering critical outcomes for Australian organisations across industries and domains. 100% of our clients are reference sites.

Our clients and team are our top priority

- Over 90%+ permanent workforce, tested extensively through a robust recruitment process.
- High employee engagement.
- Hands on owners that have delivered major programs.
- Training allowances and internal learning sessions.
- Comprehensive mentoring.
- 95% SAFe® qualified and internal trainers.

Process

- Regular structured quality assurance of all assignments.
- Weekly review of all assignments' status.
- Industry leading Customer Satisfaction and NPS management.
- Bench support available at no cost to client.
- Holidays and illness cover for clients.

Tools

- Dedicated project tools team.
- Program delivery approach designed with Pathfinder.
- Delivery approach risks defined with Pathfinder.
- Schedule integrity measured with HealthCheck Tool.
- Project reporting with dashboards and scorecards.
- Portfolio Optimisation Tool.

All our clients are reference sites.

How our values impact our delivery?

Teamwork

Teamwork has to be at the core because you can't deliver big projects without great teamwork. We focus on ensuring that the Seven team, the client team and vendors work seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A strong emphasis on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to our client's high expectations.

The Integrated Agile Enterprise Framework

- Seven Consulting's Agile Project Enterprise Framework outlined below is a proven framework of integrated processes, tools and techniques focused on simpler, faster delivery & improved ongoing support of the delivered change.
- Our key focus is the integration of rapid decision-making, effective planning and delivery of real benefits.

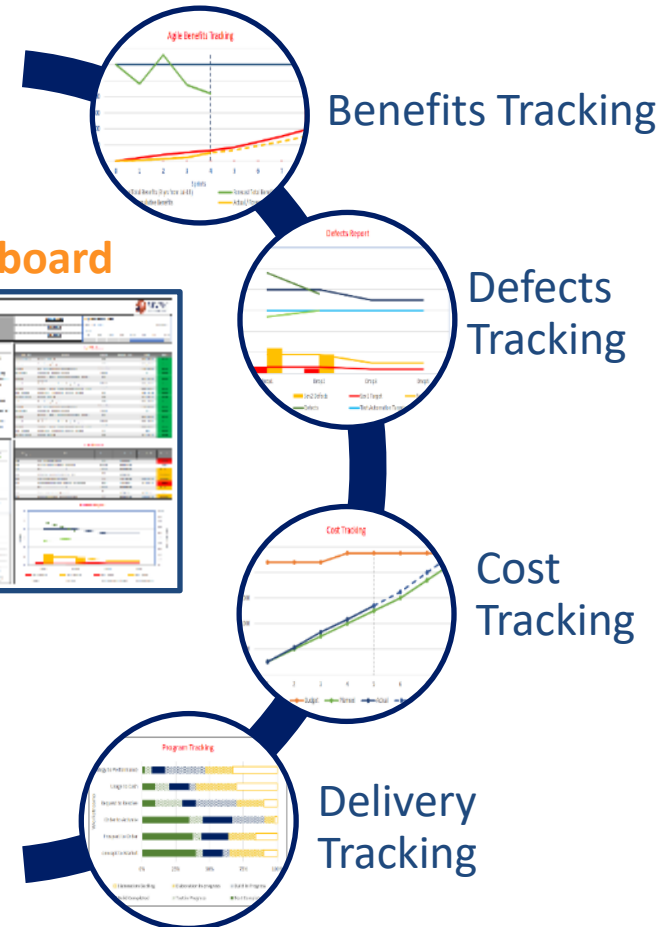

1. **Agile Enterprise (AE)** focuses on the cultural, procedural and people changes required to optimise, adopt, embed and sustain Agile models of project delivery. This includes an agile approach to strategic portfolio governance.
2. **Agile Sponsorship (AS)** requires executives to get closer to their projects, their project managers and their project teams. Sponsors must be flexible in making time available for face-to-face meetings and use simplified and face-to-face reporting lines. The Agile Sponsor is focused on benefits realisation.
3. **Agile Project Management (APM)** is an open, stakeholder-driven approach to project planning. While Scrum Masters and Product Owners focus on the detailed technical delivery, APM's must focus on stakeholder engagement, change management and related projects to ensure outwards as well as inwards management of the project.
4. **Agile Development Method (ADM)** involves a cultural as well as a procedural and technical change in how projects are planned and delivered. The coaching of project managers and business experts in how to setup and support Agile Development (Scrum, SAFe, etc.) is a critical factor in successful and sustained deployment of Agile Methods.

Best Operating Principles Recommendation

Increased Employee Engagement

February 2018 © Scaled Agile, Inc.

The SAFe Big Picture

Portfolio SAFe is for enterprises that build multiple solutions, which have minimal dependencies on one another, but require portfolio-level coordination, strategy, investment, and governance.

Large Solution SAFe is for enterprises that are building large and complex solutions, which do not require the constructs of the portfolio level.

Essential SAFe is most basic configuration of the framework and it provides the minimal elements necessary to be successful with SAFe.

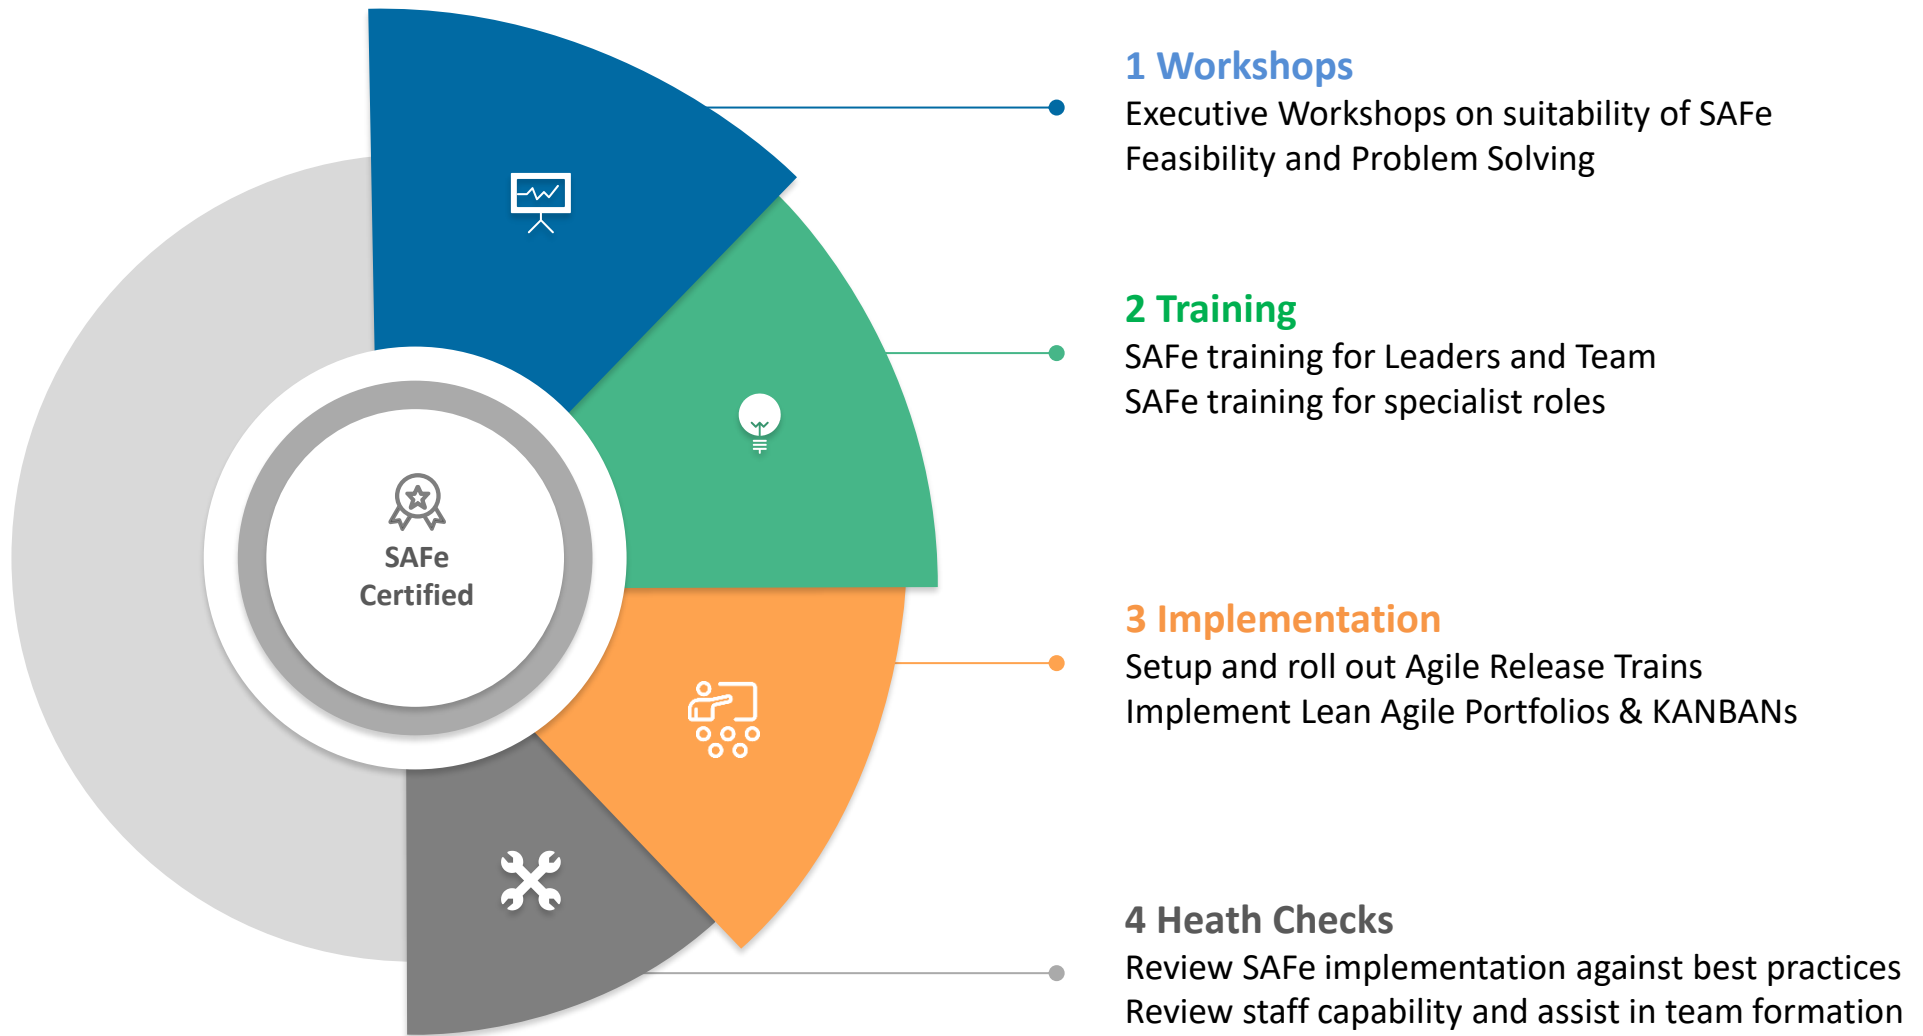

Core Values

1. Built-In Quality
2. Program execution
3. Alignment
4. Transparency

SAFe With Seven

*Seven offers **E2E consulting in SAFe***

1 Executive Workshop

Why SAFe Workshop

The **Scaled Agile Framework (SAFe)** is the world's leading framework for implementing enterprise agility. Now practiced in over 70% of the US Fortune 100, this **proven framework** has been shown to improve time to market, predictability, product quality and employee engagement. The first key to a successful SAFe implementation is knowledge and understanding.

During the one-day workshop you'll be introduced to the key principles of the framework and how it can assist in transforming your business.

Who Can Attend

All Leaders are welcome to attend. However, the following roles and experience are recommended:

- 5+ years experience in managing large scale programs
- Head of Departments, Portfolio Managers
- General Managers

Learning Goals

- Assessing the problem at hand
- Embracing a Lean-Agile Mindset
- Applying Lean-Agile Principles
- Leading the Implementation
- Getting the Results

What You Get

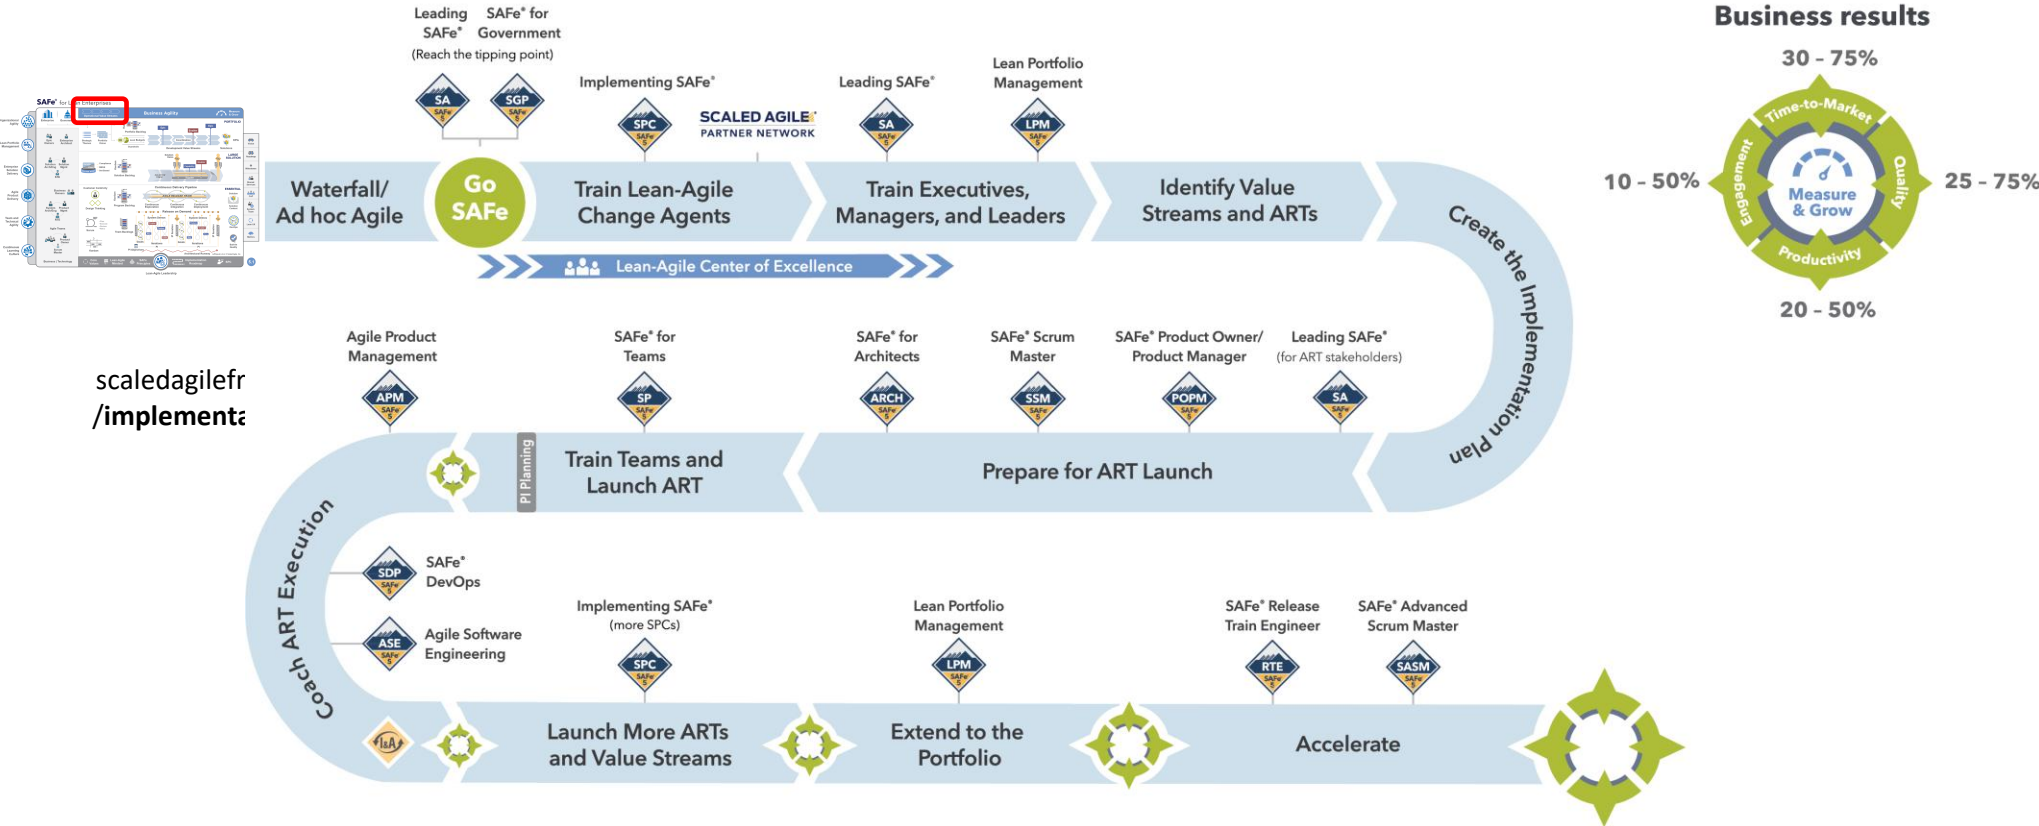

- ✓ Understanding of SAFe
- ✓ Techniques and tools to become a Lean-Agile Leader
- ✓ Mapping Value Streams to organize optimal flow
- ✓ Empower decision makers with Lean-Agile Budgeting
- ✓ Ways to improve quality and predictability at an enterprise scale
- ✓ Determine if SAFe is the right choice; if so, formulate next steps on the implementation journey

2 Training

SAFe Roles	Course	Number of Participants
Lean Portfolio Management / RTE / Release Train Management	   <p>SAFe 5 Certified Agilist</p> <ul style="list-style-type: none"> • Executive Managers • Program Directors • Program Managers • Architects • Finance 	10 – 20
Product Managers / Product Owners	   <p>SAFe 5 Certified Product Owner/Product Manager</p> <ul style="list-style-type: none"> • Business Representatives • Channel Managers 	10 – 20
Scrum Masters	   <p>SAFe 5 Certified Scrum Master</p> <ul style="list-style-type: none"> • Iteration Managers • Tech Leads • Project Managers 	10 – 20
Agile Teams	   <p>SAFe 5 Certified Practitioner</p> <ul style="list-style-type: none"> • Developers • Testers • System Engineers • DBA • Business Analysts 	20 – 30

3 Implementation

Use the Scaled Agile 'Implementation Roadmap' to navigate

4 Health Checks

What do we check

The Health Check will be performed by one of our certified SAFe Consultants. As part of the health check, we review the maturity of the SAFe implementation against the 4 CORE values (**Alignment, Built-in-Quality, Transparency and Program Execution**) of SAFe. The review is performed across all levels of the implementation, from: business/stakeholder engagement to release train setup & execution to realisation of business value.

How do we check

The check is performed via:

- Stakeholder interviews (at all levels)
- Review of tools and techniques utilised and effectiveness (at all levels)
- People capability and training assessment
- Gemba walks

What you get

- ✓ Rating against the SAFe CORE values
- ✓ Strengths and Weaknesses analysis
- ✓ Themes to identify systemic issues
- ✓ Workshops to brainstorm solutions
- ✓ Opportunity to gather Management Response to the findings

Next Steps

- Engage Seven Consulting to assist in implementing recommendations
- Conduct Training to uplift capability
- Coaching to cultivate best practices

A selection of our Agile Experts

Rob Thomsett
Thought Leader

Achievements:

- Development, training and support of the initial Project Management framework for the Australian Federal Government during the 1970s.
- Consulting and implementing a relationship and values-driven model of project management and sponsorship in many international organisations including the top Australian banks.
- Fellow of the Australian Computer Society in recognition of his education and advocacy for emphasising the central point that project management was really the management of creative people working to improve business value.
- Consulting Director on the first Tax Modernisation Program in the late 1980s, a \$1bn program.
- Consulting with NAB Group as it implements his Agile approach to executive sponsorship, benefits realisation, project management and governance across a \$1bn/year project portfolio.

Alex Massie
Program Director

Achievements:

- Program Director of the Digital Core component of the Digital Transformation of Telstra Enterprise, made up of over 500 people across Australia and India. Introduced quarterly releases into the program and managed 4 releases into production. The program budget was in excess of \$200m per annum and had over 1,000 people working on it. It was one of the largest Agile programs in Australia.
- Program Director of Latitude's Transformation Program. With a team of over 200 people, oversaw the RFP (Request For Proposal) processes for 4 separate RFPs across customer experience, personal loans, collections and the digital front end. Established the Transformation PMO, status reporting, budget management, issues/risks management.
- Program Director of the Link / Superpartners Transition Managed a team of approximately 200 people migrating the systems and data of 5 major super funds (ie MTAA Super, HESTA, Hostplus, Cbus and AustralianSuper). This is one of the largest superannuation programs in Australian history. Project personnel were located in Melbourne, Sydney and Bangalore. Established the Transformation PMO, status reporting, budget management, schedule management and issues/risks management.

A selection of our Agile Experts

Nevil Cope
PMO Director

Achievements:

- Successfully managed the multi-year, multi-entity Core Finance Platform Program for CBA
- ERP Program & Portfolio Director (CBA), responsible for delivering the vendor-side engagement (project rescue) for an enterprise-wide HR system upgrade guiding the business through the smooth transition to 'Business as Usual' state. restructuring the project-side PMO and rationalising the end-to-end solution delivery processes.
- Provided program management for a multi-year insurance remediation program (Superpartners)
- Established a PMO for Macquarie Capital Securities, Hong Kong, including the design and implementation of new operational business models coupled with a Portfolio Management dashboard.

Michael Bryant
Program Director

Achievements:

- Program Manager of multi-disciplinary teams (150+ resources) across several technology platforms and business groups for the Implementation of Medibank's transformation Program, replacing current legacy systems with SAP's Health Insurance package. This involved a transformation of their Digital channel for customer services using Agile delivery.
- Release Manager for the delivery of NBN Operational Support Systems Integrated Release 6, 7 and 9 to production. Led delivery team of 150+ personnel across NBN Co, IBM and sub-contractor suppliers. Implemented extensive risk analysis and management during design phase of a release to protect delivery of business benefits to Production.
- Project Director for the transition of National Australia Bank Day 1 voucher processing operation from NAB systems and premises to the vendors with a project budget of \$25M.

David Johnson
Program Director

Achievements:

- As Transformation Lead for NBN Co Limited David lead the Project that successfully combined two Agile Release Trains into one operating Agile train while maintaining in-flight delivery commitments, dealing with significant Change Management issues combined with positively completing Program Increment Planning for the new Train.
- As Program Director and Coach for NBN Co Limited, David ran an Agile Release Train (ART) tasked with delivering a key Finance Program with scope aimed at enabling data accuracy, controls and assurance across payments at scale. As well as delivery responsibilities the role included lead accountability for synchronizing the ART outcomes into the Corporate PMO Function.
- As Capability Lead for Macquarie Bank, David successfully completed the final waterfall delivery for the Core Banking replacement program while leading the team establishing the Release Train that continued further delivery based off Agile methodology.

TEAMWORK • TRANSPARENCY • DELIVERY

Agile Delivery

Global Investment Banking

Changing the way projects deliver outcomes to the business

The Banking and Financial Services Group (BFS) within the Global Investment Banking Company undertook what was to be their largest IT program to replace the Bank's loan and deposit systems with one modern, real-time banking platform using SAP.

Challenged by taking on such an ambitious program of work, the bank decided to significantly reduce the size of the team and move to an Agile delivery method to stabilise home loan origination on the new platform.

Seven led the shift to Agile delivery focusing on the training of team members and stakeholders who had little or no experience of working on Agile projects. Six cross-functional SCRUM teams were formed and under Seven's guidance, were able to deliver the remaining functionality within a 6 month period.

The team was equipped to successfully fall in with the Enterprise Release Train to deliver subsequent changes to the platform.

Details on SAFe Courses

Leading SAFe® with SA Certification

Why Leading SAFe

Develop a skillset that's in demand worldwide and empower your enterprise to succeed in a disruptive marketplace; when you become a SAFe 5 Agilist (SA). During this two-day course, you'll learn the principles and practices of the Scaled Agile Framework® (SAFe), how to execute and release value through Agile Release Trains, and what it means to lead a Lean-Agile transformation at enterprise scale.

Who Can Attend

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe 5 Agilist (SA) certification exam:

- 5+ years' experience in software development, testing, business analysis, product, or project management
- Experience in Scrum

Learning Goals

- Apply SAFe to scale Lean and Agile development in your enterprise
- Recognize and apply a Lean-Agile Mindset and principles
- Continuously explore, integrate, deploy, and release value
- Empower with a Lean Portfolio
- Coordinate the development of large solutions
- Enhance your Lean-Agile leadership skills
- Support a Lean-Agile transformation in your enterprise

What You Get

Attendees who pass the exam will receive:

- ✓ SAFe 5 Agilist PDF certificate
- ✓ SAFe 5 Agilist digital badge to promote your accomplishment online
- ✓ One-year membership to the SAFe Community Platform, which includes access to the SA Community of Practice
- ✓ Access to Meetup groups and events that connect you with other SAFe Certified Professionals
- ✓ *Attendees may be eligible to apply for 15 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP, PgMP, and PMI-ACP certifications*
- ✓ *Attendees may be eligible to apply for SEUs under category C, toward earning or renewing their CSP through Scrum Alliance*

SAFe® Product Owner/Product Manager with POPM Certification

Why SAFe POPM

In this two-day course, you will learn how the roles of Product Owner (PO), Product Manager (PM), Solution Manager and Epic Owner drive the delivery of value in the SAFe enterprise. You'll get an overview of the Scaled Agile Framework® (SAFe), the Lean-Agile mindset, and an understanding of how the PO/PM roles operate in the enterprise to drive the delivery of value. Finally, you will get an in-depth understanding of the specific activities, tools, and mechanics used to effectively deliver value to the enterprise.

Who Can Attend

The following individuals will benefit from this course:

- Product Owners, Product Line Managers, Product Managers, Business Owners, and Business Analysts
- Solution Managers, Portfolio Managers, Program Managers, PMO personnel, and Process Leads
- Enterprise, Solution, and System Architects

Learning Goals

- Identify the major components of SAFe
- Connect the SAFe to core Lean-Agile principles and values
- Identify key roles and responsibilities within a SAFe implementation
- Contribute to Portfolio content using epics and the Portfolio KANBAN
- Apply Value Stream strategies to define and manage solution value
- Engage in Product Manager strategies
- Operate as a SAFe Product Owner
- Develop a stakeholder engagement plan
- Build and grow communities of practice

What You Get

- ✓ Attendee workbooks
- ✓ Access to the SAFe® 5 POPM Exam – requires course attendance
- ✓ One-year membership to Scaled Agile, with access to members-only resources such as webinars, workbooks, guidance presentations, and advance notice of upcoming SAFe products
- ✓ SAFe PO/PM (POPM) attendance certificate upon request

Attendees who pass the exam will receive:

- ✓ A SAFe PO/PM certificate
- ✓ One-year certified membership as a SAFe PO/PM
- ✓ A SAFe PO/PM branding kit with the POPM certification mark

Why SAFe Scrum Master

In this two-day course, you'll gain an understanding of the role of Scrum Master in a SAFe enterprise. Unlike traditional Scrum Master training that focuses on the fundamentals of team-level Scrum, the SAFe Scrum Master course explores the role of Scrum in the context of the entire enterprise and prepares you to successfully plan and execute the Program Increment (PI), the primary enabler of alignment throughout all levels of a SAFe organization.

Who Can Attend

Intended for people new to the role of the Scrum Master, or people wanting to better understand the role and how it fits in a SAFe enterprise, attendees typically include:

- New or existing Scrum Masters
- Team Leads
- Release Train Engineers

Learning Goals

- Describe Scrum in a SAFe enterprise
- Perform the role of the Scrum Master in SAFe
- Facilitate Iteration Planning and effective Iteration execution
- Support effective Program Increment execution
- Build high performing teams by becoming a servant leader and coach

What You Get

The class registration includes:

- ✓ Printed workbooks
- ✓ PDF workbooks
- ✓ Course certificate
- ✓ Access to the SAFe® 5 Scrum Master Exam – requires course attendance
- ✓ *Attendees may be eligible to apply for 15 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP and PMI-ACP certifications.*
- ✓ *Attendees may be eligible to apply for SEUs under category C, toward earning or renewing their CSP through Scrum Alliance.*

Why SAFe for Teams

Build your skills as a high-performing team member of an Agile Release Train (ART)—and learn how to collaborate effectively with other teams—when you become a SAFe® 5 Practitioner (SP). During this two-day course, you will gain an in-depth understanding of the ART, how it delivers value, and what you can do to effectively perform your role using Scrum, Kanban, and XP.

Who Can Attend

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® Practitioner (SP) certification exam:

- Familiarity with Agile concepts and principles
- Awareness of Scrum, Kanban, and XP
- Working knowledge of software and hardware development processes

Learning Goals

- Apply SAFe to scale Lean and Agile development in your enterprise
- Know your team and its role on the Agile Release Train
- Know all other teams on the train, their roles, and the dependencies between the teams
- Plan iterations
- Execute iterations and demonstrate value
- Plan Program Increments
- Integrate and work with other teams on the train

What You Get

Attendees who pass the exam will receive:

- ✓ SAFe 5 Practitioner PDF certificate
- ✓ SAFe 5 Practitioner digital badge to promote your accomplishment online
- ✓ One-year membership to the SAFe Community Platform, which includes access to the SP Community of Practice
- ✓ Access to Meetup groups and events that connect you with other SAFe Certified Professionals
- ✓ *Attendees may be eligible to apply for 15 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP and PMI-ACP certifications.*
- ✓ *Attendees may be eligible to apply for SEUs under category C, toward earning or renewing their CSP through Scrum Alliance.*

Improve Project Success Rates with Pathfinder

1. Follow a consistent approach to customising and optimising project delivery based on each project's and organisation's key characteristics.
2. Reduce the level of project management oversights or omissions.
3. Identify delivery approach risks and mitigants.
4. Create a draft schedule in MS Project or JIRA with streams, phases, deliverables, tasks and dependencies.
5. Enable better project outcomes.
6. All in 30 minutes or less.
