How our values impact our delivery?

Teamwork

Teamwork has to be at the core because you can't deliver big projects without great teamwork. We focus on ensuring that the Seven team, the client team and vendors work seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A strong emphasis on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to our client's high expectations.

PMO Creation

Delivery Turnaround at Stockland

Stockland had experienced an unsatisfactory level of projects being delivered late, over budget or failing to meet objectives.

Seven Consulting established a PMO framework and capability tailored to the Stockland culture and environment and worked with staff and stakeholders to bring them on the journey.

Key business stakeholders see the benefits and become active champions of the PMO. Poor project delivery and 'red' projects are a rarity.

Core Banking Platform

Transforming Core Banking at CBA

The largest banking platform program in a generation was planned to propel CBA ahead of the competition who were still languishing on their 1970s based platforms.

For 6 years, Seven Consulting provided a variety of critical services to this massive \$1.5bn undertaking, from running the Program Management Office, to release and deployment planning, to project managing key releases of the program.

The new platform was a huge success. Customer satisfaction increased due to the simpler product set and the ease of the enhanced self service facilities, while staff enjoy simpler processes to release new products, and speedier resolution of issues on the front line.

Core Banking Replacement

Global Banking Group

Building the Core Banking Platform

Multiyear Core Banking Transformation to replace legacy systems with a single modern platform, including building new capabilities such as a payments engine and new banking products.

Seven Consulting was a key player in providing services to the \$350m program, including project managing key releases, PMO, and release and deployment planning and management.

Supporting Functions

Why use PMO-as-a-Service?

It provides a fit-for-purpose PMO that will meet your current needs of the organisation and is scalable for your future needs.

Scalability	Additional resources can be sourced as and when required.
Continuity	Resources can be sourced from our pool to cover sickness and leave.
Measurable	Service Level Agreement (SLA) based approach provides metrics to measure the efficiency and effectiveness of the PMO.
Consistency	Costs are agreed up front – no surprises. The approach used is the same across the organisation improving senior management visibility and enabling better comparison of project performance. A single source of truth that provides consistent quality for all projects.
Flexibility	PMO services can be engaged, disengaged or changed rapidly.
Focus	PMO resource recruiting, management, utilisation, training etc. is no longer a client responsibility leaving the business to focus on its core activities.
Shared Risk	KPIs tied to SLAs linked to Service Credits ensure “skin in the game”.
Simplicity	Utilise existing best practice Project Management Life Cycle (PMLC) framework, processes and templates (as required).
Best practice	Project management governance framework.
Accuracy	Allowing for earlier intervention and rectification of project issues to increase on time, on budget project performance.

What should you be looking for in PMO as a service?

■ PMO Capability: Experience & proven track record in delivery

- **Successful PMO Delivery Record.** Proven track record and extensive reference list should ideally include large project delivery and transformation programs. Testimony to client satisfaction.
- Ideally the delivery partner would have an **advisory capability** that could play a key role in developing an assessment of your project delivery and management alternatives, including Agile practices. They should be able to leverage their experience to help ensure that the elements of a delivery model alternative are fully evaluated in the context of your business goals.
- The chosen approach should **improve project delivery predictability, transparency and outcomes.**

■ Cost effectiveness

- The proposed solution should be **holistic** and provide a complete PMO capability with no hidden costs.
- The proposed PMO capability model should meet your specified **cost parameters**, e.g. daily rates for the right resources should not result in a net increase to the existing cost base.

■ Responsiveness

- The ability to **assign** resources. E.g. the ability to assign strong, capable PMO staff within an agreed timeframe.
- The ability to **replace** resources. E.g. the process and ability to find a suitable alternative PMO team member within an agreed timeframe.
- The ability to react and **scale up or down** based on demand and skill.

■ Independence and objectivity

- Operating as trusted business advisors with no bias or conflict of interest with respect to your other current and potential future service providers. The goal is to provide your organisation with an objective assessment of the benefits, costs and risks of each alternative under consideration. Evaluations should be grounded in extensive experience in program and project delivery, as well as an understanding of your goals and objectives.

Seven Consulting's PMO-as-a service is tailored to suit the scale, complexity and risk profile of individual projects to ensure an effective and efficient level of support to each project:

- Tiers of services and deliverables will allow optimisation for each project, maximising value for money.
- At commencement, each project is put through a “triage” process to determine the level of PMO Support required. Triage parameters include project size, complexity, business criticality, risk profile, etc.
- Based on this Triage process, each project will be designated a level of PMO support (and hence cost), for example.:
 - “Full” – All PMO Services and Deliverables
 - “Medium” – Major subset of Services and Deliverables
 - “Lite” – Minimum set of Services and Deliverables

Appendix C – PMO Tools

Seven Program and Project Management Tools

Seven Consulting's Project Pathfinder Methodology Predictor

Seven Consulting's Project Pathfinder Tool provides guidance on how to tailor your program or project. It provides suggestions on methodology to apply, operating practices to adopt and artefacts to prepare to deliver your program or project.

Schedule Health Schedule Quality

The Schedule Health Tool is designed to evaluate the quality, integrity and currency of a project schedule and suggests improvement areas.

Schedule Dashboard Schedule Data Snapshot

The Schedule Dashboard combines a number of reports to provide a 'Dashboard', or snapshot of project progress. These include task burndown, earned value, weekly velocity, critical path management and forecast accuracy.

Schedule Predictor Project End Date Predictor

The Schedule Predictor Tool uses advanced algorithms to evaluate the precision of project forecast date and PM expectation finish date according to their actual performance. It provides a prediction trend line to suggest improvement areas.

Risk and Issue Risk & Issue Dashboard

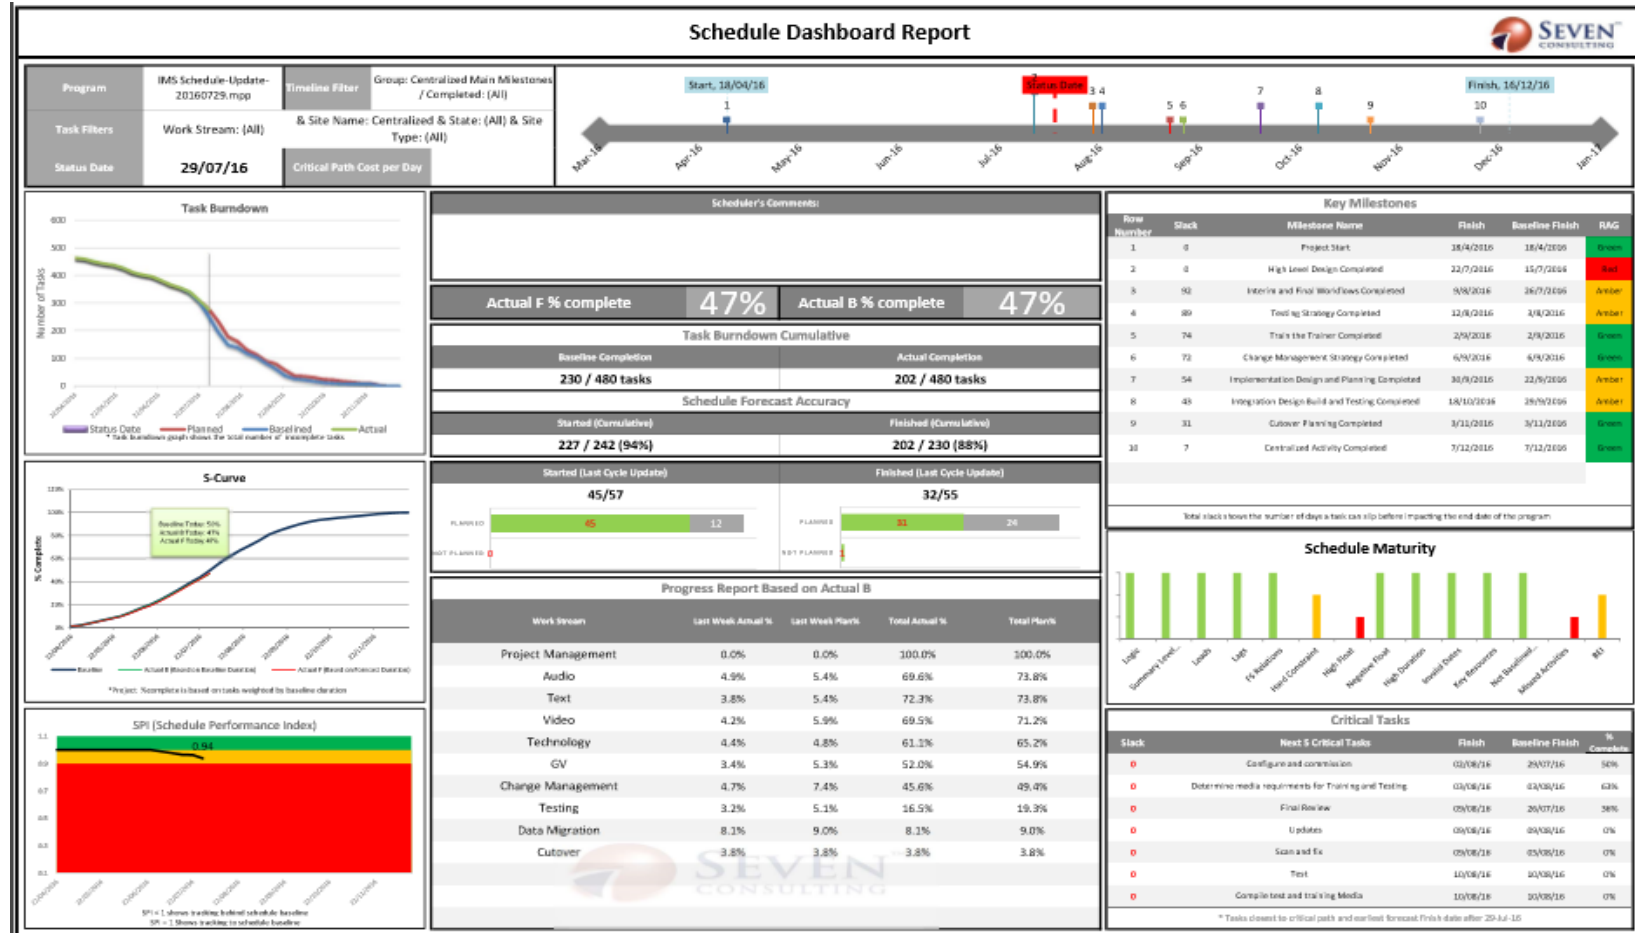

The Risk and Issue Dashboard analyses the project risk and issue registers to provide a view of key metrics that include aging, cost, quantities by project phase and severity.
