Program Delivery

We deliver some of Australia's most complex and challenging agile, traditional and hybrid programs.

We work with our clients to understand their organisational and program characteristics.

These inform how we design our delivery approach to produce the best outcome for our clients. The majority of our consultants are scaled agile (SAFe) certified and manage billions of dollars of transformation programs that range in size from <\$1m to >\$500m.

PMO Services

We provide PMO establishment and management, PMO analysis, scheduling services, and tools for some of the largest organisations in Australia.

This can range from scheduling services, to running the PMO for \$1.5bn programs, to EPMO management.

All of our clients are reference sites

Change Management Services

We provide program change management, adding value from the start of an initiative through to realising benefits. We also support the integration of change management at an enterprise level to improve portfolio performance.

Delivery Consulting

We provide delivery capability uplift, sponsor and project manager training, and portfolio and program reviews to assist our clients improve their program delivery. We have successfully provided these services to over 60 clients.

Delivery Tools

Seven Consulting has developed world-leading tools to assist our clients in; portfolio optimisation, delivery approach design and weekly insights into their delivery. These tools are used successfully on over \$5bn of programs annually.

How our values impact our delivery?

Teamwork

Teamwork has to be at the core because you can't deliver big projects without great teamwork. We focus on ensuring that the Seven team, the client team and vendors work seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A strong emphasis on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to our client's high expectations.

Situation: The introduction of APRA's CPS230 standard was triggered by a need to strengthen operational risk management and enhance resilience within the Australian financial sector, particularly in the wake of observed control failures, disruptions, and increasing reliance on service providers.

Complication

- APRA recognized the need for a more robust and integrated approach to managing these risks, including those related to technology, third-party service providers, and global operations.
- APRA regulated entities need to be CPS230 compliant by 1 July 2025
- APRA regulated entities have until 1 July 2026 to update their service provider contracts to be CPS230 compliant

Question/What needs to be done - Key Areas of CPS230 governance

Operational Risk

Business Continuity

Service Provider Management

Governance and Reporting

Answer/How Seven Consulting can help

- Seven Consulting has a CPS230 readiness assessment tool which we can use to assess our client's CPS230 readiness and identify key gaps
- Seven Consulting can work with our clients to plan and estimate the required CPS230 compliance projects
- Seven Consulting can work with our clients to implement the required CPS230 compliance projects as quickly as possible

CPS230 is a prudential standard issued by the Australian Prudential Regulation Authority (APRA) focusing on "Operational Risk Management". CPS230 is designed to ensure that regulated entities have effective frameworks and practices in place to manage operational risks, including those related to processes, systems, and people. The standard focuses on enhancing the resilience and robustness of institutions by addressing potential risks and ensuring appropriate governance and risk management practices.

Category	Key Compliance Obligations
Operational Risk Management	Framework, incident management, Board oversight
Critical Operations	Identification, impact tolerances, resilience plans
Business Continuity	BCPs maintained, tested, updated annually
Service Provider Management	Risk management for all service providers
Material Service Providers	Board approval, monitoring, formal agreements
Incident Management	Recording, escalation, APRA notification of incidents
Governance & Reporting	Clear accountability, governance, oversight, reporting of material changes or incidents

Our approach to CPS230 compliance readiness is based on 3 steps:

- 1. Undertake a CPS230 readiness assessment, using the Seven Consulting CPS230 assessment tool*
- 2. Identify gaps and additional projects required to achieve compliance*
- 3. Implement the CPS230 projects to close the gaps and achieve compliance*

1. Undertake CPS230 Readiness Assessment

Seven Consulting would work with key SMEs from the client to assess CPS230 compliance readiness, according to the areas listed in the assessment spreadsheet

2. Identify CPS230 gaps & additional projects

Seven Consulting and the client team would identify the key gaps and estimate the time/effort/costs to remediate each gap

3. Implement CPS230 projects to address gaps

The client team would implement the process changes, controls and projects required to address the gaps. Seven Consulting can provide resources to plan, coordinate and support delivery of the projects

CPS230 – Compliance Maturity Assessment

CPS230 – Compliance Maturity Assessment

The CPS230 assessment model produces summary outputs which can be used for implementation planning and briefing management on the key gaps.

Compliance Category	Maturity Rating
1. Governance & Accountability	80%
2. Operational Risk Management Framework	78%
3. Critical Operations	88%
4. Business Continuity Management (BCM)	69%
5. General Service Provider Management	83%
6. Material Service Provider Compliance	78%
7. Scenario Analysis & Testing	65%
8. Information & Technology Management	68%
9. Incidents, Notifications & Reporting	76%
10. Implementation & Transition	83%

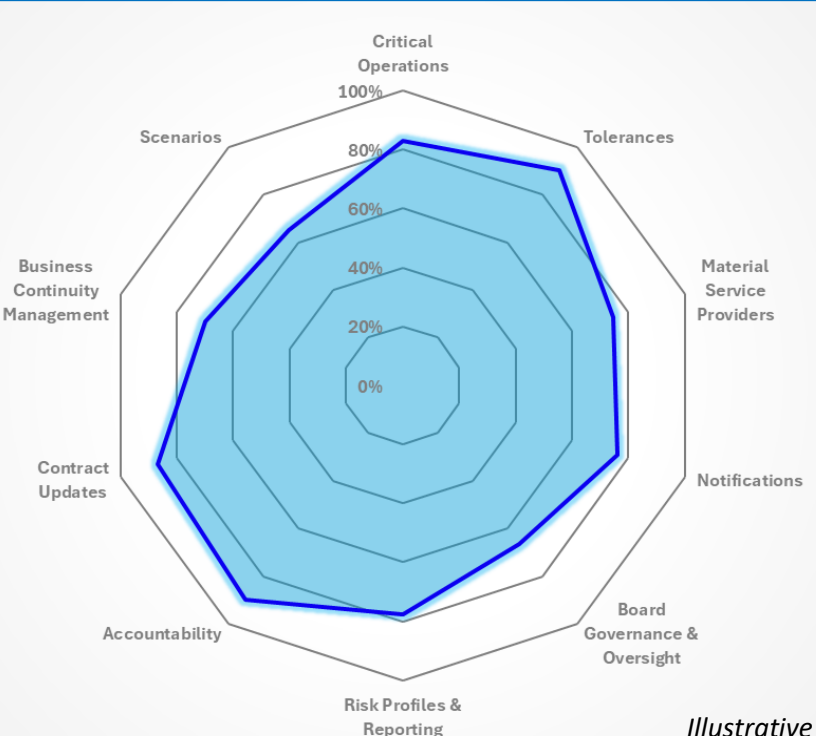

In this example, we can see that “Business Continuity Management”, “Scenario Analysis & Testing” and “Information & Technology Management” are three areas that need some improvement to be CPS230 compliant.

CPS230 – Compliance Maturity Assessment

*The maturity assessment model has also been mapped to APRA's CPS230 Compliance Checklist. **
