Program Delivery

Complex agile, traditional & hybrid delivery

We deliver some of Australia's most complex and challenging agile, traditional and hybrid programs. We work with our clients to understand their organisational and program characteristics.

These inform how we design a delivery approach to produce the best outcome for our clients. Most of our consultants are scaled agile (SAFe) certified and manage billions of dollars of transformation programs that range in size from <\$1m to >\$500m.

PMO Services

PMO establishment, management & uplift

We establish, uplift and lead PMOs, delivering analytics & insights, scheduling and tool solutions for some of Australia's largest organisations. Our experience ranges from targeted project support to PMO leadership of \$1.5bn programs and enterprise PMOs.

Change Management Services

Design, plan, deliver and embed changes

We provide end-to-end Change Management as a value-adding function of a project. Our role spans program mobilisation and business case through to change readiness, measurement and benefits realisation.

Underpinned by Seven Consulting's tool suite

ENTERPRISE TRANSFORMATION OUTCOME

Enterprise Transformation Capability

Executives increasingly view governance, delivery, adoption and value realisation as interconnected enterprise capabilities — not standalone functions. Seven Consulting's Consulting services and Tool suite, working in combination, directly uplift your organisation's capacity to deliver integrated transformation outcomes.

Enabled by the powerful combination of:

Consulting Services

Transformation Capability and EPMO and ITPMO uplifts

How our values impact our delivery?

Teamwork

Teamwork is at the core of what we do because big projects can't be delivered without great teamwork.

We focus on ensuring that the Seven team, the client team and vendors create one team working seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A strong emphasis on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to our client's high expectations.

“I am unconvinced of the value my bank gets from its 1billion + p.a. investment in technology”

David Murray, World Congress on IT Conference, 2002

“Of the 788 completed projects, a little over 10 per cent have had their expected benefits assessed.”

*Victorian Auditor-General’s Report,
Digital Dashboard: Status Review of ICT Projects and Initiatives, 2015*

- The majority of executives involved in the sponsorship of projects report that they struggle to have confidence in the benefits planning and benefit estimates of their projects;
- Too many projects develop benefits at the beginning, obtain approval to commence the project BUT never critically monitor the status of expected benefits once the project is in delivery;
- Most projects that have realistic benefit models fail to effectively engage critical stakeholders such as Change Management, Benefit Owners and Project Finance experts or engage them only towards the end of the project;
- The actual realisation of project benefits is complicated by lack of consequences, poor base-line data, inadequate metrics and inconsistent reporting.

Our Benefits Management Services

Benefits Management Framework (BMF)

Seven Consulting can provide a complete team to successfully tailor, design, deploy and support our proven integrated approach to Benefits Management. The approach, tools and artefacts for Benefits Management covers all types of projects, change management and includes comprehensive project risk tools. The Seven Consulting Benefits Management Framework is aligned to the other Seven Consulting services such as Program and Project Management.

The Seven Consulting Benefits Management Framework is based on the consulting, education and published books of internationally acknowledged Thought Leader, Rob Thomsett.

Seven Consulting can deliver tailored education on Benefits Management for Sponsors, Project Managers, Business Analysts, Finance and senior technical experts. Thousands of sponsors, project managers and other project experts globally have attended these exciting and powerful education sessions.

These sessions are tailored to reflect the client's unique culture, processes, methodologies and are compatible with PMI, Prince2, SAFe and other prevailing delivery methodologies.

Benefits Management Consulting and Coaching

Sponsors

Our Consultants provide coaching and mentoring based on our experience in supporting many hundreds of senior executives. We have coached these executives in these proven concepts, tools and techniques that enable full monitoring, tracking and, more importantly, real benefits realisation.

Project Management

Our Consultants can provide vendor-neutral, specialist and proven program and project management coaching in projects utilising the Seven Consulting Benefits Management Framework. All Seven Consulting professionals are trained in the Seven Consulting Benefits Management Framework.

Change Managers/Finance

Our Consultants can provide vendor-neutral, specialist and proven expertise in assisting Change Managers in defining and establishing the plan and realise benefits. We can provide coaching to your Change Managers in integrating our Benefit Management Framework into their existing methods.

Benefits Management Lead/Coach

Our consultants can provide an end-to-end service to define, analyse, implement, roll out and then run a customised Benefits Management process for clients. This role is focussed on Benefits or Value Realisation and provides coaching in Benefits Management as well as review of the actual data to provide input into decision making.

Benefits Management Approach:

A proven solution

- The Benefits Management Approach is an integrated suite of proven processes, tools and techniques focused on simpler, more realistic and collaborative benefits planning. It also addresses improved ongoing management of benefits across the delivery phase, the post-production support phase and the benefits realisation phase of the project life-cycle. Ongoing attestation of benefits by the Sponsor during delivery is a critical component.

Note: For Agile and Hybrid projects, the benefits realisation cycle above will be iterative and repeating for each production release.

Benefits Management Approach: Powerful, simple tools

- Seven Consulting's Benefits Management Approach is built around a set of simple, powerful and integrated tools that enhance project management processes and greatly increase the depth of analysis and modelling of project benefits. These tools include:
 - O3 (Objective, Output, Outcome) Projects produce Outputs and Outputs lead to Outcomes. Understanding the clear, direct and provable links between Outputs and Outcomes is key to benefits realisation;
 - Benefit Categories Financial and non-financial benefits are classified into a taxonomy that clarifies what specific benefits each Output and Outcome are expected to deliver;
 - Benefit Realisation Plans A simple tool that identifies what actions stakeholders (Benefit Owners) must undertake to realise benefits and how those benefits will be measured and tracked;
 - Benefit Realisation Risk A tool that enables a structured and consistent assessment of the risks associated with the actual realisation of benefits including mitigation strategies;
 - Sponsor Attestation An essential tool that enables Sponsors to regularly review the status of their planned benefits and provide updates to governance and other relevant stakeholders;
 - Benefit Curves Different projects have different profiles for the timing and dynamics of their benefits realisation. This tool enables a more fine-tuned approach to determining the frequency of benefits tracking and when benefits realisation tracking finishes.

Benefits Management Approach: Implementation Approach

- Seven Consulting's Benefits Management implementation approach is one of partnering, coaching, consulting and skills transfer. Seven Consulting works with this team in deploying the tools and techniques on a set of pilot projects and then work with the team to ensure a full transfer of skills and knowledge.
- Typically implementing a Benefits Management Approach involves three stages summarised in the diagram below and on the next page:

Portfolio Benefits Management

Implementing an integrated Benefits Management Framework for the Australian Catholic University

Deputy Vice-Chancellor and C.O.O. required a full Benefits Management Framework across \$250 million project portfolio including several large building projects,

For 6 months, Seven Consulting provided the framework, associated tools and coaching to a an ACU expert – Manager Enterprise Portfolio. The team revised multiple Business Cases, created a Benefits Management reporting system and provided consulting to major projects and programs .

An integrated benefits planning, tracking and reporting system was deployed successfully across the major ACU project portfolio. Monthly reports on planned versus actual benefits were integrated into existing portfolio reporting systems. Sponsors were held responsible for realising benefits and their performance measures were adjusted to include benefits realised.

Seven Consulting & Rob Thomsett's BMF Consulting Experience

Australian Government

Australian Taxation Office

Seven Consulting developed and deployed an early version Seven Consulting Benefits Management Framework across the entire \$1 billion ATO Modernisation project portfolio. Sponsored by the Commissioner and Deputy Commissioner, this consult involved an innovative ROI regime where a 20% p.a. dividend (profit) had to be returned to Department of Finance and Treasury. Seven consultants trained, coached and mentored all sponsors, project and change managers.

Seven Consulting continued to develop and deploy an evolving version of Seven Consulting Benefits Management Framework across the entire \$150 million AMP (UK) strategic project portfolio. Sponsored by the CEO and CIO, this consult lead to a revised project governance model and a number of projects being cancelled for lack of real benefits. Seven Consulting trained, coached and mentored all sponsors, project and change managers.

The Seven Consulting's BMF and associated Agile project management approach was adopted across the Macquarie Bank Group. A highly-focussed approach to real benefits had a significant impact on Macquarie's "best of breed" financial performance.

In an initiative sponsored by the CFO, Seven Consulting provided thought leadership, innovative tool development and practical support to improve the processes and practices for governing, planning, monitoring and realising benefits from the \$1billion/pa NAB project investment. This involved extensive reviews and consulting on a number of very large projects.

Seven Consulting designed, implemented and ran the Benefits Management Approach for AGL's Customer Experience Transformation program. The approach took account of the Agile methodologies that was used for the program and was used in reporting value to the board. We then customised and ran the Value Tracking System that tracked benefits for the Customer Markets Division portfolio.
