

Australia's Best
Program Delivery Company

Peak Results, Delivered Together

Seven Consulting Program Mobilisation Services

AUSTRALIAN
OPALS

Seven Consulting proudly sponsors the world-class Australian Women's National Basketball Team, the Opals, currently ranked #3 globally, crowned FIBA Women's Asia Cup Champions in 2025, and medal winners at the FIBA Women's World Cup 2022 and the Paris 2024 Olympic Games. We also sponsor the Financy Women's Index and, in 2026, launched our Grants Program for Female Athletes to help reduce financial barriers in their sporting careers.

TEAMWORK • TRANSPARENCY • DELIVERY

Program Delivery

Complex agile, traditional & hybrid delivery

We deliver some of Australia's most complex and challenging agile, traditional and hybrid programs. We work with our clients to understand their organisational and program characteristics.

These inform how we design a delivery approach to produce the best outcome for our clients. Most of our consultants are scaled agile (SAFe) certified and manage billions of dollars of transformation programs that range in size from <\$1m to >\$500m.

PMO Services

PMO establishment, management & uplift

We establish, uplift and lead PMOs, delivering analytics & insights, scheduling and tool solutions for some of Australia's largest organisations. Our experience ranges from targeted project support to PMO leadership of \$1.5bn programs and enterprise PMOs.

Change Management Services

Design, plan, deliver and embed changes

We provide end-to-end Change Management as a value-adding function of a project. Our role spans program mobilisation and business case through to change readiness, measurement and benefits realisation.

Underpinned by Seven Consulting's tool suite

All of our clients are reference sites

ENTERPRISE TRANSFORMATION OUTCOME

Enterprise Transformation Capability

*Executives increasingly view governance, delivery, adoption and value realisation as interconnected enterprise capabilities — not standalone functions.
Seven Consulting's Consulting services and Tool suite, working in combination, directly uplift your organisation's capacity to deliver integrated transformation outcomes.*

Enabled by the powerful combination of:

Consulting Services

Transformation Capability and EPMO and ITPMO uplifts

Seven Consulting has performed transformation capability reviews and uplift for over 60 organisations incl Optus, Qantas, Australia Post, and Woolworths. 100% of our assignments are reference sites.

Seven Consulting has done dozens of Program reviews for NAB, Macquarie Bank, Optus, Woolworths and many other organisations.

Tool Suite

Leveraging decades of experience to develop world-leading tools

- Portfolio Optimisation Tool (POT): Optimise your portfolio prioritisation and resourcing.
- Pathfinder: Create the right-sized delivery approach & required artefacts
- Objectives, Outputs & Outcomes (O3): Connect your strategy to execution.
- Balanced Score Cards (BSC): Score your portfolio delivery effectiveness

Successfully used on over **\$5bn of programs** annually.

All of our clients are reference sites

Our Clients

Seven Consulting has a proven track record delivering critical outcomes for Australian organisations across industries and domains. 100% of our clients are reference sites.

Our clients and team are our top priorities

Client Satisfaction Survey Results

Year	Satisfaction rating	Survey questions
Jan-Jun 2026	99.62%	4,767

"Every Seven consulting person I have ever worked with has been very good at what they do."

"Strong program delivery capability with the flexibility to scale up and down quickly to meet program and business needs. Look to continue to bring the best of the Seven ecosystem to clients to demonstrate the value-add."

"Seven Consulting continues to provide consultants who are of a very high calibre and they remain a strategic partner."

"Good people and a focus on support from the central organisation when required."

"Very happy with the level of organisation and governance the Seven Project/Program Managers bring to our more complex initiatives."

Equity Trustees

"We have been very impressed with the capability of consultants from Seven Consulting and this has significantly uplifted our project management maturity, discipline, capability and delivery across the organisation."

How do we get to 98+% customer satisfaction?

People

- Over 90%+ permanent workforce, tested extensively through a robust recruitment process.
- High employee engagement.
- Hands on owners that have delivered major programs.
- Training allowances and internal learning sessions, including sessions led by Rob Thomsett—our in-house Thought Leader.
- Comprehensive mentoring.
- 95% SAFe® qualified and internal trainers.

Process

- Regular structured quality assurance of all assignments.
- Weekly review of all assignments' status.
- Industry leading Customer Satisfaction and NPS management.
- Bench support available at no cost to client.
- Holidays and illness cover for clients.

Tools

- Dedicated project tools team.
- Program delivery approach designed with Pathfinder.
- Delivery approach risks defined with Pathfinder.
- Schedule integrity measured with HealthCheck Tool.
- Project reporting with dashboards and scorecards.
- Portfolio Optimisation Tool.

All our clients are reference sites.

How our values impact our delivery?

Teamwork

Teamwork is at the core of what we do because big projects can't be delivered without great teamwork.

We focus on ensuring that the Seven team, the client team and vendors create one team working seamlessly together.

Transparency

Assumptions and poor communications kill projects, whereas openness is the foundation of good relationships and reliable delivery. We remain a completely independent consultancy.

Delivery

A strong emphasis on outcomes focuses the team and grows confidence. With a confident attitude, expert personnel and effective teams we always deliver to our client's high expectations.

Effective mobilisation of a program is critical to improving the likelihood of a program's success. There are often questions and uncertainty about how a program will be delivered and by whom, especially when working in complex organisations with network or virtual team resourcing models. Running a structured mobilisation approach will answer these questions and ensure the program has what it needs to deliver effectively.

Seven Consulting's program mobilisation services will bring qualified practitioners and a structured process to ensure that your program is set up for success from the beginning.

- Our experienced practitioners engage with a broad range of stakeholders to ensure that we have fully understood the program objectives and the enterprise delivery capability.
- Key artefacts will be reviewed against our own best practice benchmarks to investigate all areas that may affect success.
- Industry best practice capability frameworks will be used to drive the design of your program structure with the right program management processes and tools.
- We collaborate closely with your team to verify our findings and make sure our recommendations are practical and achievable.
- Our PMO and governance toolsets will create robust plans and schedules for successful execution.
- We will bring our experience of delivering programs across some of Australia's most complex companies, spanning different industry groups and technology domains, to find the most effective model for your enterprise.
- Your internal delivery capability will be independently assessed by our team and factored into the program resource strategy.
- The Seven team will leverage our depth of experience in vendor management to provide valuable input into vendor sourcing and contracting.

Program Mobilisation Phases

Seven Consulting's program mobilisation approach includes three phases: *Discover* (the scope, objective, benefits and delivery approach), *Design* (the structure to define the program baseline) and *Deploy* (the team, processes and tools to deliver the program).

DISCOVER

Establish the program scope, objective, benefits and delivery approach.

The program's core team will have a holistic view of the enterprise and the intended change to enable an effective mobilisation.

DESIGN

Design the target state program structure and based on this, define the initial program baseline. Deliver the core project management governance artefacts for the program.

Agreement between the key stakeholders and the program's leadership on the program approach, structure and governance with the first view of the program plan.

DEPLOY

Establish and build the team, processes, tools and forums to successfully deliver the program.

An effective and engagement team backed with clear plans, as well as the right governance, processes and controls to drive success for the next phase of the program.

Mobilisation Discovery Phase

Key Area	Artefact / Deliverable	Roles
Identify organisation stakeholders (objectives and success criteria)	• Program charter (scope, objectives, approach, success criteria) • Stakeholder analysis • Capability statement	• Project Sponsor – Owns the program charter • Change Lead – Owns stakeholder analysis
Baseline capabilities and artefacts	• Scope • Business solution architecture • Deliverables matrix • Resource capability gap analysis • Program logistics (space, equipment, tools schedule)	• Business Owner – Owns the scope • Business Solution Lead – Owns the business solution architecture • Program Director – Owns deliverables matrix • PMO Lead – Owns resource capability gap analysis and program logistics
Identify risks, assumptions, issues and dependencies	• RAID register (risks, assumptions, issues and dependencies)	• PMO Lead
Stakeholder map	• Stakeholder RACI map (responsible, accountable, consulted and informed)	• PMO Lead
Resource strategy	• Resource plan (mapped into program schedule) • Agree roles and responsibilities	• PMO Lead
Define delivery approach	• Delivery approach (Agile, traditional or hybrid) - See Seven Consulting's Project Pathfinder Tool slide	• Program Director – Owns the process of delivery approach definition • PMO Lead/Change Lead – Work with stakeholders to update the Pathfinder questionnaire to define the delivery approach

Mobilisation Design Phase

Key Area	Artefact /Deliverable	Roles
Delivery approach approved	• Delivery approach • Program charter • Benefits realisation plan	• Program Director
Program management plan (PMP) approved	• PMP • Program governance artefacts • Steering Committee charter • Program operating model • Program processes • Workstream delivery structure (org chart)	• Program Director – PMP, program governance artefacts, Steering Committee charter, program operating model • PMO Lead – Program processes and workstream delivery structure
Workstream scope statement	• Scope (program charter, PMP)	• Program Director
Change impact analysis	• Change impact analysis (CIA)	• Change Lead – Engages with stakeholders and the audience. Owns the high-level CIA to inform the business case and planning deliverables
Business case approved	• Business case	• Business Owner/Program Sponsor
Financial model populated	• Business case financial model	• Lead Financial Analyst
RAID logs	• RAID logs/registers	• PMO Lead

Mobilisation Deployment Phase

Key Area	Artefact / Deliverable	Roles
Functional teams	- Position descriptions (roles and responsibilities) - Recruitment process - Onboarding - Induction process	Team Leads
Workstream and program plans	- Program prioritisation statement - Program schedule - Resourcing plan	- Program Director – Owns program prioritisation statement - PMO Lead – Owns program schedule and resourcing plan
Commence	Program schedule/tracking	PMO Lead – Owns program schedule and tracking
Program management processes and tools	- PMP - Program tools - Program controls: - Progress reporting metrics - Meeting schedules - Quality plan - RAID register(s) - Document management system	- Program Director – Owns the PMP - PMO Lead – Owns program tools and program controls
Vendor and contract selection	- Evaluation committee (Program Sponsor, Program Director, Legal, Commercial Manager, plus others) - Vendor selection/evaluation processes (ROI, RFT, RFP, POC)	- Program Sponsor – Owns plan contracts - Program Director – Owns vendor processes
Change Management plan, processes and tools	- Change Management analysis and planning: - Detailed change impact analysis - Engagement and communications - Learning and enablement	Change Lead – Owns Change Management

Seven Consulting's Project Pathfinder

We developed a cloud-based tool that helps us, within 30 minutes, to create the following outcomes for any project:

- Agree the optimised project delivery approach: Agile, traditional (waterfall) or hybrid.
- Detail the customised blend of activities where the recommended approach is hybrid.
- Understand the residual risks and mitigations for that recommended approach.
- Specify the deliverables required for delivery, many of which are agnostic to the Agile or traditional approach.
- Detail the deliverables by phase and stream.
- Provide templates for each of the deliverables.
- Produce a detailed delivery approach, including dependencies, mapped to a schedule, JIRA or exports in various formats.

The screenshot displays the 'Project Pathfinder' tool interface. The top navigation bar includes the Seven Consulting logo, the tool name 'Project Pathfinder', and a hamburger menu. Below this, a progress bar shows five steps: 1. Project Label, 2. Methodology Selector, 3. Defined Methodology, 4. Deliverable Selector, and 5. Final Dashboard. The current step is 'Defined Methodology'.

Key information displayed includes:

- Organization: Seven Consulting
- Project Name: Project Pathfinder
- Manager: SevenConsulting

The 'Recommended Approach' section shows 'Agile' as the selected option. A gauge chart indicates a 'Hybrid' approach with a score of 73.4%. To the right, two horizontal progress bars show 'Agile Readiness Score' at 78.1% and 'Agile Suitability Score' at 69.2%.

The 'Risks to go Agile' section is highlighted, showing a table of risks and advice:

Question	Response	Advice
Project viability or outcomes are uncertain	Strongly Agree	Identify sub-sets of functionalities that would benefit from early feedback from the business and/or the customers. These sub-sets will be parts of the solution that are either the key or highest risk that need to be handled earliest.
The risk of breaking existing working system or business process functionality is low	Strongly Disagree	Agile methods do not necessarily require that feature increments are implemented to production as they are developed. It is possible to use sprints to develop features which are then "batched up" to create a deployable release. In this context, an appropriate Product Owner and access to users/customers remains important.
Project delivery is impacted by other programs of work operating in the same space	Agree	Consider use of Scrum of Scrums approach to cross-team communications. Project team can structure planning & iterations to support dependency development. Conduct interface design as required (in Business Case, Iteration 0 or later)

At the bottom, there are buttons for 'Restart', 'Back', and 'Start Deliverable Selector'.

Program Mobilisation – Example Outputs

Program Structure

Workstream Scope Statement

Work stream: Applications	Work stream Manager:
Prime company: VWA	Mike Denning
Key Stakeholders Signoff:	Supporting Companies: RFP Vendors, TechM, App Vendors
Objectives:	
To provide all application information required to:	
- Ensure that target applications are identified, along with their end-state profile, and the high level actions required to reach this end-state. - Ensure that all non-target applications are identified for decommissioning as part of data centre exit, with associated dates and timelines for when these can occur. - Ensure all data required for appropriately contracting data centre program with vendors is collected.	
Deliverables:	
- Application Inventory: VWA - Application End State Identification: VWA - Application Migration Strategy: VWA	- Infrastructure Discovery: TechM - Capacity Discovery: TechM - Configuration Items CMDB: TechM - Data Quality Control: VWA - System Interdependencies: VWA
Dependencies:	
- End State Architecture (Architecture Workstream) - VWA Roadmap (External to Initiative)	
Out of Scope:	
SaaS, CRM and Networks Applications	Business impact analysis (Business Workstream)
Application Consolidation Planning	Operational requirements (Operations Workstream)

Stakeholder Map

PMO Functions

Program Mobilisation – Experience

News Corporation

Seven Consulting undertook a 6 week planning and mobilisation activity at News Corporation to prepare a Technology Roadmap, Business Case and Capability Model for an advertising sales transformation program.

Seven Consulting's work enabled News Corporation to:

- Gain a common understanding of the program objectives and alignment of the business and technology goals.
- Mobilise business and technology staff to work on the common solution, underpinned by a properly funded and detailed program plan.

QBE

Seven Consulting was engaged by QBE in December 2014 in recognition of the need to reset the OneHR@QBE Transformation program.

After a discovery review, Seven Consulting proposed and introduced a new program structure, more appropriate governance framework and established key program processes and controls within the program. The right team was put in place for the overall program leadership, PMO, and leadership of the global technology and testing workstreams. A One Team approach was introduced to ensure that the whole program team were focused on the successful delivery.

Phase 1 of the program went live in Aug 2015 on time and under budget.

Seven Consulting was asked to lead the creation of a Delivery Strategy for the Reporting & Disclosure program, and to address issues of governance, organisation, planning, resourcing, change management and vendor engagement. Involving around 30 key stakeholders from across NAB Wealth departments, a series of focused workshop and feedback sessions were held to mobilise the program.

As part of this planning phase, the scope and high level requirements were defined. Using these, Seven Consulting created an end-to-end program plan, program organisation, resource and cost model. The governance and assurance structure was agreed within the existing portfolio governance model and trustee assurance framework. Finally, the vendor engagement strategy for the technology solution was confirmed.

After the strategy and mobilisation phase was completed, Seven Consulting were subsequently asked to lead a major area of the program.

Improve Project Success Rates with Pathfinder

1. Follow a consistent approach to customising and optimising project delivery based on each project's and organisation's key characteristics.
2. Reduce the level of project management oversights or omissions.
3. Identify delivery approach risks and mitigants.
4. Create a draft schedule in MS Project or JIRA with streams, phases, deliverables, tasks and dependencies.
5. Enable better project outcomes.
6. All in 30 minutes or less.

AUSTRALIAN OPALS

Seven Consulting is proud to continue as a Major Sponsor of the Australian Women's National Basketball Team, the Australian Opals, currently ranked #3 in the world.

This builds on our ongoing commitment to elite women's sport, continuing our investment with them since 2022.

Our support of women's sport began in 2017 as the first dedicated sponsor of the CommBank Matildas, backing their journey through to the 2023 FIFA Women's World Cup.
